

POST-SCRIPTS

By
GEORGE ROTHWELL BROWN

"The swifter hand doth the swift
words outrun:
Before the tongue hath spoke the
hand hath done."

One gathers from the late news
from Rapid City that the report
that President Coolidge isn't keep-
ing in close touch with the situation
at Geneva is one of the most ac-
curate dispatches ever sent out by
the war correspondents on the
Squaw Creek front.

Gov. Ritchie card-indexes Wayne
B. Wheeler and puts him in the
proper pigeon hole. To para-
phrase Huck Finn's remark to Jim,
"you can't argue with a member of
the Antisocial League."

All the pallbearers at the funeral
of the prohibition agent slain by
his assistant at Keyser, W. Va., we
read, "were law enforcement of-
ficials." Indeed!

The old query as to what would
happen in the event of an irresisti-
ble force meeting an immovable
body has been answered at the Ge-
neva, dismemberment conference—
coolidgeism has encountered
Britannia ruling the waves and
neither will ever be its old self
again.

We are sufficiently cynical to
realize that if the Williamstown
Know-It-Alls weren't bawling out
Italy for having a Mussolini they'd
be bawling her out for having a
Lenin. It is a peculiarity of some
minds that everything that is is
wrong.

Prohibition enforcement in New
York seems to be progressing much
more satisfactorily this morning
than it was yesterday morning,
which vastly enhances our admira-
tion of the official statement as a
universal panacea. It is the modern
magic wand by which the impossible
is accomplished.

Lloyd George seems to think
that if Jack Dempsey can come
back anybody can.

The Fine Arts Commission is
said to be deeply perplexed in se-
lecting an appropriate location for
that Greek pillar but we can think
offhand of any number of fruit
stands and shoe-shining parlors.

The Sioux Indians are not merely
going to adopt President Coolidge
as a member of the tribe—when
they get through with King Cal he'll
have a job in which the bothersome
third term issue is never raised.

An alarming falling off in
church membership in Protestant
communities at the rate of 500,000
a year is noted in the report of
the continuation committee to the
interchurch conference, made by
the office in Philadelphia, by the office
of the Presbyterian Church in the
United States of America. You
can't make Christians by law.

Mrs. Aimee McPherson seems to
hesitate between quitting and get-
ting out or staying and having it
out with the gossips in a show-down
fight.

"True conscious honour is to feel no
sin,
He's arm'd without that's innocent
within."

Hollywood stars stave off the
wave of coolidgeism in the
films which threatened to engulf
them by promising to work here-
after for what they get. They'll be
like the balance of us yet.

Here's the highest tribute ever
paid to the United States Army—
it is teaching the Irish how to
fight.

It is said that Queen Marie may
spend the balance of her days with
the cloistered nuns of some quiet
sanctuary, and thus round out a
varied life.

"Now warm in love, now with'ring
in my bloom,
Lost in a convent's solitary gloom."

It seems there are 48 people in
Washington by actual count who
didn't make the mistake of suppos-
ing, as we did when we saw it, that
Mount Blanc is in Switzerland. Go
to the head of the class!

Chicago churches protest against
staging the shipyard riveter's prize
fight in Soldiers Field, scene of the
recent solemn Eucharist Congress.
Richards rush in where angels fear
to tread.

Baltimore Puritanism raises a
yowl of protest because of a recent
boxing bout staged for the benefit
of the Society for the Prevention
of Cruelty to Animals, but we ven-
ture the opinion that the boxers
didn't give each other half as much
of a pain as the long-faced broth-
er did.

The Federal Trade Commission
goes act-up hunting in waters in-
habited by DuPonts, General Motors
and U. S. Steel.

COOLIDGE DECLARED TO HAVE LOST HOPE OF GENEVA SUCCESS

Can Not Accept British Armament Proposals, Says President.

HELD TO HAVE FOUGHT AGAINST PESSIMISM

Desire Was to Promote Good Will Among Nations, He Asserts.

By CARLISLE BARGERON.
(Staff Correspondent of The Post)
Rapid City, S. Dak., July 29.—Presi-
dent Coolidge virtually has given up
hope for the success of the Geneva con-
ference, it was indicated today. He had
hoped that it would be one of the
crowning accomplishments of his ad-
ministration, but it was made known,
rather emphatically, that this country
can not accept the British proposals.

It would involve a larger naval pro-
gram than this country wants to under-
take.

The impression was obtained by those
who talked with the President that
there is perhaps a faint ray of hope
left with him, but it is based entirely
on the possibility that Great Britain
will modify its proposals. That coun-
try's 600,000 tonnage program for
auxiliary surface craft, cruisers and
destroyers is the main stumbling block.

The disagreement over the number and
size of individual craft is considered a
collateral question which it is not
believed would be difficult of solution
should the total tonnage be agreed upon.

A tonnage of 600,000 would involve
this country in a building program
which would be diametrically opposed
to one of the main purposes of Mr.
Coolidge's call for the conference. His
principal desire, it was explained, was
in his behalf today, was to promote good
will and friendship among the peo-
ples of the earth. The fact that the
leading naval nations got together and
put a limit on their armaments would
have a salutary effect on the whole
world, the President had believed.

Saw Budget Slice.

But aside from this, and bringing
the subject to the door of every Ameri-
can, it is believed that the President
has an ultimate reduction of \$150,000,
annually for the country's budget.
This would be his greatest stride in his
policy of economy for which he is so
well known and for which his ad-
ministration has come to stand above
all else. Such a slice from the tax-
payers' burden would not come next
year, of course, or the next. But it
would be the heritage of the Coolidge
administration. This would not be the
case if this country should agree to
the British government's proposals.

An agreement, even based on these
proposals, might have some effect, of
course, toward spreading good will
among peoples, but its practical effect,
to say the least, would be to dissipate
the fond dream of a tremendous budget
slice.

Some of those who talked with the
President today interpreted his remarks
as a warning to Great Britain. Others
saw further the threat that if the con-
ference did fail, this country would

SLAYER OF 5 TO DIE UNDER JURY VERDICT

Man Who Caused 3 Nights of Rioting at Tampa, in Which 6 Died, Convicted.

Tampa, Fla., July 29 (A.P.).—Benjamin Franklin Levin, charged with the
slaying of five members of the Merrell
family here last May, was found guilty
without recommendation of mercy by
a jury in circuit court today. The
verdict carries a penalty of death by
electrocution.

The Merrells were beaten to death
with a railroad spike and the arrest of
Levin was followed by three nights of
rioting in which six men were killed
and more than a score injured in storm-
ing the jail here to lynch Levin. State
troopers were called out and used
machine guns before finally quelling
the mob.

Authorities said at the time that
Levin confessed that he had slain the
Merrells by mistake, believing that he
was killing members of another
family with whom he had quarreled.
On the stand, however, he denied a
great part of that and said he had
killed Looney Merrell, the head of the
family, in self-defense, after Merrell
had struck him. He denied slaying
Mrs. Merrell and the three children.

A 5½-month-old baby, the only
survivor of the Merrell family, was
wounded by the slayer. The baby was
taken by relatives who are living in
Missouri.

2 Fliers Sentenced For Smuggling Plot

Los Angeles, July 29 (A.P.).—Emmet
Longbrake and Burleigh P. Chaney,
aviators, were sentenced to serve a year
and a day each in a Federal penitentiary
by Federal Judge E. J. Henning today.
The two were convicted last week
of conspiring to smuggle Chinese into
the country by airplane from Mexico.

Capital Expects Collapse Of Naval Arms Meeting

Secretary Kellogg Believes British Proposals Final and Abandons Hope for Agreement on Basis Now Offered, Which Is Held Unsatisfactory.

By ALBERT W. FOX.

With the new British proposals char-
acterized here as unacceptable and un-
satisfactory, the stage is being set for
the collapse of the Geneva Naval Limi-
tations Conference tomorrow.

Secretary of State Kellogg under-
stands the new British proposals to be
final. The official text, which has
been cabled to the State Department,
was made public yesterday. No official
comment was made here but it is
known that Mr. Kellogg sees no hope
for agreement and that he regards this
latest British proposal as even more
unsatisfactory than the proposals which
W. C. Bridgeman, first lord of the
British admiralty, made before he went
to confer with the British cabinet in
London.

Thus, all hope for agreement appears
to have gone a glimmering. It is as-
sumed in official circles here that to-
morrow's plenary session will be devoted
to final statements by the British,
American and Japanese delegations and
at some plan may be adopted which
will take the sting out of the failure
to agree and minimize possible future
friction as a result of this disagreement.

It appears particularly important at
this time not to allow the incompati-
bility of the British and American
standpoints to become translated into
anything resembling suspicion or an-
tagonism between the two governments
and peoples over the vital question of
naval defense.

The chief reason for the anticipated
failure of the conference is due pri-

marily to the fact that Great Britain
and America have been unable to
agree upon parity in naval strength
so far as cruisers and auxiliary craft
are concerned. Britain recognized
America's right to parity. But the
question then arose as to "What is
parity?"

It became necessary to allocate cruiser
tonnage in such manner as to satisfy
British and American ideas of parity
at the same time and here the confer-
ence has failed. What the British
maintained would be parity for them
was construed as destroying parity for
America and what America has insisted
upon as establishing parity for her has
been construed by the British as de-
stroying parity for them. In other
words, it was necessary to find a com-
mon denominator for the formulas of
British and American naval require-
ments and this has not been found.

The new British proposals show that
the British government stands squarely
behind the proposals which Mr. Bridg-
man and Admiral Earl Jellicoe made to
the plenary session of the conference
on July 14. These proposals were not
acceptable to America and, later, the
heads of the British delegation went to
London to report.

Mr. Bridgeman dealt with one vital
matter of British concern when he said
that Britain must insist on fixing
cruiser tonnage before agreeing to talk
cruiser tonnage, because Britain im-
peratively needed a large number of
small cruisers and could not afford
to be restricted in tonnage available for

23 ADMIT GUILT IN U. S. THEATER TICKET INQUIRY

Brokers to Pay Penalty if an Appeal of 2 Others, Now Pending, Is Lost.

TAXES WERE WITHHELD

New York, July 29 (A.P.).—Twenty-
three individuals, representing eleven
theater ticket agencies, pleaded guilty
today to charges that they had not
reported the actual amounts they re-
ceived for tickets and had not paid in-
come taxes on the unreported amounts.
Coincidentally with the arraignment
and pleas of the indicted brokers, United
States Attorney Tuttle's investigation
of agency practices, which has been
under way for weeks, was adjourned
indefinitely.

By a stipulation between counsel
for the brokers and Tuttle, action on
pleas will be made dependent on the
result of appeals now being taken by
Oscar and Edward Alexander, ticket
brokers, who stood trial on similar
charges, were found guilty and were
sentenced to serve six months each.
Besides their bail of \$1,000 each, the
brokers were required to deposit with
the court \$42,500 to apply on possible
fines and to deposit 50 per cent of the
excess charges received from ticket
sales since June 1.

If the appeal of the Alexanders is
decided in their favor Tuttle agreed
that the pleas of guilty would be dis-
regarded and he will take no fur-
ther action if the conviction of the
Alexanders is upheld, however, the
23 will pay the Government back
taxes totaling \$937,356.80 and will also
be fined and be given prison sen-
tences. The prison terms, however,
will be suspended under the terms of
the agreement.

Wuchang Base Burns; Munitions Kill 150

Hankow, China, July 29 (A.P.).—More
than 150 soldiers and civilians were
killed and hundreds injured as a con-
sequence of an unexplained fire at
an army ammunition base at Wuchang,
across the Yangtze from Hankow, yes-
terday. Most of the deaths were caused
by the explosion of gunpowder and
bullets.

The entire district surrounding the
base was reduced to ruins. American
missionary properties in the explosion
zone were wrecked.

PARKING POLICEMEN ORDERED SHIFTED

Sinclair and LeFoe, Who Have Arrested Thousands, Sent to Outskirts.

Police Privates R. V. Sinclair and
John R. LeFoe, whose activities have
consisted in arresting thousands of
parking motorists annually by aid of
pieces of chalk and stop watches, have
been ordered transferred to wider
fields in the outlying sections of the
District where they will do patrol
duty on bicycles. It was stated yester-
day at police headquarters.

The two policemen, with Ray Aggle-
ton, have constituted the antiparking
squad of the First Precinct, in down-
town Washington. Aggleton is to be
left at the First Precinct, but the other
two will be transferred effective
August 1, when fifteen patrolmen will
be newly mounted on motorcycles and
other transfers will follow.

The transfer order had not been
completed yesterday and the precincts
to which Sinclair and LeFoe will be
sent had not been named.

FUNDS HANDLING INQUIRY STARTED BY CITY HEADS

Want Data on Safeguards Employed in District Gov- ernment Offices.

M'CARL'S AID IS SOUGHT

Following the recent rest of a bu-
reau chief in the District Auditor's
Office on a charge of forging tax re-
fund vouchers, and numerous investi-
gations by agencies independent of the
District government, the District Com-
missioners yesterday set afoot an in-
quiry of their own to ascertain whether
all possible safeguards are being em-
ployed in the local government for
"receipt of and accounting for money."

They decided to appoint a commit-
tee, and Proctor L. Dougherty, presi-
dent of the Board of District Com-
missioners, wrote a letter to Com-
ptroller General John R. McCarl, ask-
ing if the latter would permit J. B.
Dent, of the General Accounting Of-
fice, to act with District officials on
the investigation body.

Dent, with two other representatives
of the Comptroller General, has been
conducting an investigation into the
methods in operation in the offices
of the auditor, assessor and other
District offices.

FALSE-ALARM SERIES AWAKEN NORTHEAST

Police of three precincts early today
in vain searched the Northeast sec-
tion of the city for practical jokes
who in the span of an hour "pulled"
fire boxes for five false alarms, calling
out virtually every piece of fire ap-
paratus in Northeast Washington.

The first of the series was turned
in at 11:29 o'clock last night from
Second and H streets northeast. In
five minutes another followed from
New Jersey avenue and F street north-
west, and at 11:52 another from the box
at Fourth and M streets northeast.

By this time residents of the section
awakened from their slumbers were
thoroughly aroused.

As the alarms continued to sound,
the police reserves of the Ninth Pre-
cinct were dispatched to comb the
neighborhood. Police expressed the
opinion the alarms were turned in by
a "party of drunks" traveling about in
an automobile.

10,000 Reported Dead In Chinese Floods

Shanghai, July 29 (A.P.).—The Chi-
nese newspaper Shih Pao reports that
10,000 persons have been drowned and
100,000 rendered homeless by flooding
of the Kiating River in Fukien Prov-
ince. The mountain floods were par-
ticularly destructive in the region of
Changchow, west of Amoy, the dam-
age being estimated more than \$2,000,-
000.

A Shanghai dispatch July 14 reported
a flood disaster in Anhwei Province,
which is far northward from Fukien
Province. More than 1,000 deaths were
reported in the Anhwei flood, which
was caused by the overflowing of the
Yangtze River.

500,000 MEMBERS LOST, SAYS REPORT, YEARLY BY CHURCH

Carroll Calls the Leakage of Denominations "Alarming."

EXPENSE AND LOWER MORAL TONE BLAMED

Interchurch Document Also Sees People Migratory; Clergy Indifferent.

Philadelphia, July 29 (A.P.).—An
"alarming" falling off in church mem-
bership in Protestant communities at
the rate of 500,000 a year is noted in
the report of the continuation commit-
tee to the interchurch conference made
public here today by the offices of the
Presbyterian Church in the United
States of America. The conference was
held here April 19 last.

The report of Dr. H. K. Carroll, of
Pittsfield, N. J., the committee secre-
tary, has been issued in anticipation of
a movement in which all the churches
affected by the losses are expected to
join in an effort to relieve the situa-
tion.

"In thirteen communities with a
grand total of 15,169,170 members," the
report summarizes, "the losses aggregate
268,065. As the total of evangelical
membership is upward of 29,000,000, the
total yearly loss, if other communities
besides the thirteen were included,
would approximate about 500,000."

The lowered moral tone "and its be-
numbing influence upon the spiritual
life of Christianity," that resulted from
the World War, the practice of churches
in "pruning" their memberships, the
"negligence" of clergymen in failing to
visit members who stray from the flock
and the frequent migrations of fami-
lies from one community to another
are found the basic causes of the
membership losses.

Expense Is a Burden.

The remedy urged is "give each and
all something to do personally in and
for the church. Make every church a
busy church, not a cold, lazy lifeless
body."

Dr. Carroll, in a letter accompanying
the document, points out that "in-
creased expenses of church member-
ship weigh heavily upon many who
drop it because of the feeling that they
can not afford it." Adds: "The losses
from these and other reasons are be-
coming so great as to challenge the at-
tention of pastors and others and to
shock them out of their indifference."

The Rev. Frederick L. Fagley, secre-
tary of the commission of evangelism,
is quoted in the report as authority
for the estimate that the Congrega-
tional churches lose an average of 30-
40,000 members yearly.

In 1926 the total of nonresident in-
active members of the Methodist Epis-
copal Church, according to the report
of Dr. Oliver S. Baketel, its statistician,
reached approximately 406,000. He as-
serted that the "pruning process" made
necessary by rules calling for the drop-
ping of such members is responsible
for the net increase in 1926, amounting
to less than 13,719, "ten or twelve times
less" than it was a few years earlier.

Dr. Lewis S. Mudge, stated clerk of
CONTINUED ON PAGE 4, COLUMN 7.

MARIE WILL ENTER CONVENT, IS BELIEF

Friends Expect Queen Is to Join Nuns Near Castle in Carpathians.

Bucharest, Roumania, July 29 (A.P.).—
Queen Marie, who since King Ferdi-
nand's death has given herself up
completely to religion, may soon join
a convent, her friends believe.

Ever since the queen came to Rou-
mania 35 years ago, she has been fas-
cinated by the old Roumanian monas-
teries and convents, which she has
helped from time to time with money
and other gifts. She has visited all
these retreats, which are among the
most picturesque in Europe, and is
familiar with their history, architec-
ture and decorations.

There is a pretty sixteenth century
convent near the queen's castle in
Bras, in the bosom of the Carpathian
Mountains, where ever since King
Ferdinand's illness a year ago, she has
spent much time in meditation, prayer
and communion with the resident
nuns.

Armed Men Attack Troops Near Dublin

Dublin, July 29 (A.P.).—Armed men
made an attack on the guard at the
Tallaght Military Camp near Dublin,
this morning, but were driven off by
the soldiers' fire. None of the guard
was injured.

Between 50 and 60 shots were ex-
changed. The morning was dark and
the military authorities were unable to
say whether any of the attackers, who
retreated across a field, were wounded.

GRAND JURY HEARS OF CHECKS DRAWN FOR GOV. JACKSON

Indiana Executive Denied Receiving Payments Reported.

AID TO STEPHENSON GIVES INFORMATION

Inquiry Into Allegations of Political Corruption Is to Be Continued.

Indianapolis, Ind., July 29 (A.P.).—
Floyd Christian, Noblesville, Ind., at-
torney, who stated some time ago he
had seen checks made out by D. C.
Stephenson in favor of Gov. Ed Jack-
son, testified before the Marion County
grand jury today in connection with
its investigation of alleged political
corruption in Indiana.

Christian, who was one of Stephe-
nson's attorneys during his trial for the
murder of Miss Madge Oberholzer, of
Indianapolis, in 1925, said his client
showed him two checks drawn in favor
of Gov. Jackson—one for \$5,000 and
another for either \$2,500 or \$2,700. It
was understood the grand jury ques-
tioned the attorney in that connec-
tion today. Jackson has denied receiv-
ing any money from Stephenson other
than \$2,500 for a saddle horse.

Mr. and Mrs. C. M. Hull, of Ander-
son, also were examined by the grand
jury today as it dug more deeply into
the charges brought by Stephenson
that during his reign as grand dragon
of the Ku Klux Klan and afterward,
political leaders had entered into in-
famous corrupt deals with him. Mr. Hull
was the photographer to whom Foster
Strader took many alleged official
contracts and agreements for photo-
graphing after Stephenson had been
convicted of murder.

Former Aid Helps Inquiry.

Back from Pittsburgh, where they
met Foster Strader, formerly an em-
ployee of Stephenson, members of the
Marion County prosecutor's office to-
day placed before the grand jury what
they declared to be "additional val-
uable information" in the investiga-
tion of alleged political corruption in
Indiana.

Ensley W. Johnson, special assistant
prosecutor and William H. Scheffer,
deputy prosecutor, said they met
Strader in Pittsburgh yesterday. They
would not say whether the information
was in the form of par's or whether
it was given orally. Neither would they
say whether Strader would be asked to
return to Indiana in connection with
the investigation.

Strader visited Stephenson daily dur-
ing the former Ku Klux Klan leader's
incarceration in the Noblesville jail
both before and during his trial for
the murder of Miss Madge Oberholzer
in 1925. Strader was employed in re-
lous capacities by Stephenson for sev-
eral years and for a time lived with
him.

Prosecutor William H. Remey today
called Miss Mildred Meade, formerly
CONTINUED ON PAGE 3, COLUMN 3.

Mellons Must Pay A Customs Penalty

New York, July 29 (A.P.).—A cus-
toms penalty on the Aluminum Co. of
America, which is largely owned by
the family of Andrew W. Mellon, Sec-
retary of the Treasury, was upheld by
the United States Customs Court to-
day. The Customs Service, which im-
posed the penalty, is a subdepartment
of the Treasury Department.

The collector of customs at Pitts-
burgh had imposed an additional 10
per cent duty against the Aluminum
Co. of America and the United States
Aluminum Co. on the grounds that
certain machinery imported by them
had not been properly marked with
the name of the country of origin.

SACCO CASE DECISION IS DUE ON WEDNESDAY

Gov. Fuller to Act on Fate of Noted Condemned Men by Midweek.

Boston, July 29 (A.P.).—Nicola Sacco
and Bartolomeo Vanzetti, internation-
ally known radicals awaiting execution
for murder, will know their fate prob-
ably next Wednesday. Gov. Alvan T.
Fuller said today. The men, originally
sentenced to die in the electric
chair during the week of July 10, to
enable the governor to investigate their
case.

As Gov. Fuller left his office at the
statehouse late today for his summer
home at Rye Beach, N. H., he informed
newspaper men that he thought his
decision in the Sacco-Vanzetti case
would be ready "sometime Wednesday
night."

The governor's council, which con-
siders with the executive petitions for
clemency in such cases, is to meet
Wednesday.

Except for interviews with several
witnesses whose names were not made
public, the review of the Sacco-Van-
zetti case undertaken by the executive
in response to a widespread appeal for
clemency now is complete. William
C. Thompson, defense counsel, com-
pleted his argument before the govern-
or late today.

2 KILLED, 1 PROSTRATED AS CAPITAL SWELTERS

Man Dies on Park Bench and Another Tumbles From a Barge.

SHOWERS NOT IN SIGHT

The sweltering heat which enveloped
the city yesterday killed two men,
and resulted in the prostration of another.
When thunderstorms, predicted to
break the back of the hot spell, failed
to materialize.

With the mercury dropping steadily
from 6 o'clock yesterday evening until
the early hours this morning, the
Weather Bureau abandoned the "non-
developing" thunderstorms and opti-
mistically predicted that it would be
cooler today without them, although
the skies would be cloudy.

The Weather Bureau announced an
official high temperature for yesterday
of 87 degrees, attained by the mercury
about 5 o'clock. But the bureau's clock
on Pennsylvania avenue registered a

NAVY INVESTIGATORS INTERVIEW CITIZENS IN LOW FLYING CASE

Bureau of Navigation Can
Close Matter or Urge
Court-Martial.

RECOMMENDED ACTION
MAY BE KNOWN TODAY

Trial Body Could Relieve
Aviator From Plane Serv-
ice as Penalty.

Investigation of the alleged low flying of Lieut. (junior grade) Thomas B. Williamson, U. S. N., Hampton Roads, Va., in the Mount Pleasant section Sunday, is now in the hands of the Bureau of Navigation of the Navy Department. The disciplinary branch of the Bureau of Navigation has taken up the investigation and will forward its findings to Rear Admiral R. H. Leigh, chief of the bureau. It will decide whether to close the case or recommend a court-martial.

Officers of the disciplinary branch of the Bureau of Navigation began interviewing witnesses yesterday, it being explained at the department that no bodies but a court of inquiry or court-martial have the authority to call witnesses for interrogation. Decision to change the procedure of investigation is based on the fact that as the bulk of testimony probably would come from civilian witnesses, there would be no point gained in having a special court of inquiry, and that the Bureau of Navigation could proceed and forward its recommendation to the Secretary of the Navy, who will have final decision.

Officers Not Revealed.
Identity of the officers making the preliminary investigation was not revealed as a precautionary measure in the interest of fairness.

Action on the matter may become known today or Monday, and in case a court-martial is decided, it probably will be held in this city, and its sessions will be open unless the Secretary of the Navy rules otherwise.

In explanation of department procedure in the case, it was explained that a board of investigation or court of inquiry is nothing more than a means to obtain information where the facts are varied and complicated, and that it has no power to recommend action. It can only recommend action if it may think appropriate.

If the statements of witnesses are sufficient and definite enough to enable the department to decide on appropriate action, there would be no necessity for it to duplicate the investigation already made by civil authorities, it was said.

The case involves alleged violation of provisions of the department act forbidding stunt flying by commercial or military pilots above congested areas and District and military regulations prohibiting maneuvers within a specified altitude.

Action of the Naval court-martial, if ordered, would be either exoneration from the charges or reprimand, relief from flying or loss of numbers on the Navy list, or any combination or all of the latter three.

Department of Commerce air regulations provide a fine of \$500 and disbarment for violation of the regulation, and officials of the department asserted that Lieut. Williamson is amenable to this rule, which is applicable to both civil and military fliers. The Commerce Department will take no action in the matter, however, pending results of the Navy Department's finding.

In the event that the case does come before the Department of Commerce, it will be the first in which a military aviator has been summoned before it for investigation regarding violation of flying rules.

Pool at Camp Simms Open to Public Today

Through the efforts of the Congress Heights Citizens Association, the Camp Simms swimming pool will be opened today to the public for the remainder of the summer, at 2 o'clock, this morning, Dr. E. E. Richardson, president of the association, announced last night following an executive committee meeting.

The pool will remain open from 9 until 11 in the morning, and in the afternoon from 2 till 4, every day except Sunday, Dr. Richardson said, it was announced that Mrs. S. G. Leffler had donated the money necessary to finance the plan.

Youth's Leg Is Broken In Arlington Accident

While attempting to turn at Virginia avenue and Columbia pike, Arlington, Walter Kerschner, 18 years old, of Arlington, who was riding a motorcycle, was struck by an automobile driven by C. R. Epling, north of 813 Third street northeast, Washington. He was dragged 30 feet and suffered a broken leg. He was taken to the Emergency Hospital, this morning, by Joseph Doyle. No arrest was made.

FIRE RECORD.

5:08 a. m.—Northwest corner of 14th and Pennsylvania avenue, fire; loss, \$100.
7:10 a. m.—Massachusetts avenue, near Naval Observatory, auto truck.
10:42 a. m.—24th and 15th streets northeast; auto.
10:50 a. m.—Kilgore bridge; bridge floor.
3:27 p. m.—New Jersey avenue and K street northeast; auto.
5:05 p. m.—Near 19th and 15th streets northeast; auto.
11:29 p. m.—Second and H streets northeast; fire.
11:34 p. m.—New Jersey avenue and F street northeast; fire.
11:39 p. m.—Fourth and M streets northeast; fire.

BANKER, 77, AND HIS BRIDE

Charles R. Flint, 77-year-old financier of New York, who was married Thursday to Miss Charlotte Reeves, of Washington. Miss Reeves is 40 years his junior. The wedding took place in New York city in one of the fashionable churches.

SWIMMING POOL, DENIED PERMIT, TO DEFY COUNTY

Official of Chevy Chase Lake
Firm Says That He
Expects Trouble.

Despite the refusal of the Board of County Commissioners of Montgomery County to issue the National Capital Natatorium Co. a permit to open its new swimming pool near Chevy Chase Lake, the company will throw the pool open to the public Tuesday or Wednesday, George Heon, treasurer of the company, declared last night.

Heon admitted his firm expected "trouble" with the authorities as the result of its action, but declared it would "fight it out in court" if the commissioners interfere with opening proceedings. He asserted the company could not afford to allow the property to remain unused, now that construction has been virtually completed.

Although company officials insist they had no reason to believe they would be denied permission to open the pool before they began its construction, Dr. B. C. Perry, chairman of the board of county commissioners, said to have maintained they had ample warning. He held residents of the community to be opposed to the project.

Heon declared last night, however, that for the most part citizens of Montgomery County favor opening of the pool, and that "only one or two are doing the kicking." The exact date of opening, he said, will depend on the length of time it takes to install lockers on which construction was begun only yesterday.

The pool, which adjoins the golf links of the Columbia Country Club, will accommodate approximately 3,000 persons at a time, Heon said. It is of concrete of 212 feet by 202 feet.

2,200 German War Pieces to Be Shown

More than 2,200 implements of warfare making up the District's quota of captured German armament brought to Washington through the efforts of the Costello Post of the American Legion, will be placed on display in a downtown office building early next week, Maj. Harry Bean, chairman of the committee in charge of disposal of the equipment, announced last night.

Assisted by William F. Franklin, adjutant of the post, and ten members of the committee, Maj. Bean spent the better part of yesterday unpacking everything from hand grenades to field pieces arriving in the shipment. He made known his intention of presenting the machine gun to the Washington Post, and the remainder of the equipment will be distributed among deserving members of the public.

Parmenter Defends Citizens' Dry Groups

Assistant Attorney General Bertie M. Parmenter, speaking yesterday at a luncheon of the Knights of the Round Table at the University Club, declared the eighteenth amendment as eternal as any affirmed to the Constitution, and characterized as "strange doctrine" assertions that citizens' organizations formed to aid enforcement of the law are illegal.

Mr. Parmenter attacked the methods employed by wet "propagandists," declaring that "the only way to open the door" is to "come into the open." He said they too often couple true statements with misleading ones, in a manner calculated to confuse the public. He declared New York's attitude in refusing enforcement of the Federal statute not shared by other States of the Union.

Conference on Movie Practices to Be Held

(Associated Press.)
Officials of the Federal Trade Commission indicated yesterday that a trade practice conference will be held in the near future in an effort to iron out difficulties surrounding the block booking of pictures and other alleged unfair practices in the motion picture industry.

It was stated that at least 80 per cent of the producers and 60 per cent of the distributors had shown a willingness to participate in such a conference. Block booking long has been under inquiry by the commission, which recently issued a cease and desist order against the Paramount Famous Players-Lasky Corporation.

Grieving for Dead Daughter, Woman Dies

Mrs. Nellie T. Reidy, 40 years old, of 900 Fourth and E-half street, southwest, died yesterday at Gallinger Hospital. Grief over the death of her 14-year-old daughter was given as the cause of the illness which resulted in her death.

Her daughter, Marie Cecile Reidy, died last March while a pupil of the eighth grade at St. Dominic's School. While the child lay in her coffin the technical surveyors have been completing the survey of the property of St. Dominic's Church, issued a diploma in her name and placed it in her hand. It was buried with her. Mrs. Reidy will be buried beside her daughter in Mount Olivet cemetery. Her husband, Michael D. Reidy, survives her.

SENIOR DIPLOMAT REPORTED RECOVERING FROM WOUND

Brother of Guatemalan Envoy
Declares Attempted Suicide
Theory "Unfounded."

KELLOGG REGRETS MISHAP

Francisco Sanchez Latour, Minister from Guatemala to the United States, was reported recovering last night at Emergency Hospital from the effects of a bullet wound in the left breast near the heart. Senior Latour was found lying wounded on the floor of his study in his home, 1821 New Hampshire avenue northwest, early yesterday morning.

The bullet inflicted a wound, which should not prove fatal unless complications set in. The bullet physicians said, missed the lungs, heart and arteries and passed through the side. Dr. Defino Sanchez Latour, acting consul general of Guatemala, at New York, and brother of the diplomat, hurried to Washington when informed of the accident. After conferring with the wounded envoy, the brother issued a statement to the effect that "my brother was wounded accidentally by a broken pistol which he believed to be unserviceable." The statement declared that the unfounded suspicion which has been advanced that he attempted suicide in any way attempted suicide is so obviously a distortion of fact that it needs no further comment.

Senior Latour was visited at the hospital by several members of the diplomatic corps, including the Peruvian Ambassador, and the Persian Minister. Secretary of State Kellogg in a note to the wounded diplomat expressed his regret at the accident. He said:

"I was very much grieved this morning to hear of the accident, which befell you last night, but I am now more than pleased to learn that it was not serious and that your condition indicates a speedy recovery."

Following the hearings before Maj. Brehon Somervell, local District Engineer, the project will be studied and approved by the Army Corps of Engineers, which expects to hold its hearings in September prior to making a decision.

Foremost among the opponents of the hydroelectric power project is the National Capital Park and Planning Commission, which has opposed the construction of the project since its inception. The project will ruin forever the scenic beauty of the neighborhood of Great Falls and the gorge of the Potomac river, which is one of the most beautiful spots in the city.

It was learned unofficially yesterday, that the hearing of August 24, will be held at the Interior Department Building in this city.

Blaze at Tia Juana Sweeps Two Blocks

San Diego, Calif., July 29 (A.P.).—Fire that swept two early blocks in Tia Juana, Mex., early today, caused an estimated loss of \$500,000. The fire was reported to have started in rubbish behind the San Diego Bar, and, before being brought under control, swept the entire block on the east side of Main street, from First to Second street, and the block from Second and Main east to the Chula Vista, Calif., fire department, which answered a telephone call for help.

Tia Juana Garrison was called out and prevented any looting.

Five negroes, of Oxon Hill, Md., charged with an offense for which capital punishment can be imposed, in connection with the attack the night of July 20 on Miss Alberta Rice and her escort, John W. Buckler, on a lonely road near Oxon Hill, were held without bail following a preliminary hearing yesterday before Justice of the Peace H. W. Gore at Upper Marlboro.

The men, Richard Brown, William H. Proctor, Henry Proctor, Calvin R. Ridley and Alfredrick Simms, were spirited away from Upper Marlboro immediately after the hearing, when feeling in the crowd which had gathered, assumed serious proportions. They were taken to the Baltimore jail for safe keeping.

Buckler was the only witness heard in the crowded courtroom. He told Justice Gore that he and his wife had driven into the country after taking members of Miss Rice's family to their home from a band concert in the city.

After they had parked near Oxon Hill, he said, two colored men came along and asked them to get out of the car. They were later joined by three others, according to the witness, who said they dragged him and his companion from the car and, after beating him nearly senseless with stones, attempted to assault Miss Rice.

While Buckler was still making an effort to protect the girl, but with little hope of success, William Gore drove up in his motor car and succeeded in frightening off the negroes until he got Miss Rice and Buckler into his car.

Miss Rice and Buckler were taken to Casualty Hospital and treated for severe bruises and cuts.

Miss Rice was able to furnish authorities with a complete description of one of her assailants, and Maryland officials, aided by Policeman R. L. Manning of the Eleventh Precinct, soon arrested a man, on information obtained from him, they arrested the other four men.

The case will be considered at the October term of the Prince Georges County grand jury.

Will Rogers to Lose
His Place as Mayor

Beverly Hills, Calif., July 29 (A.P.).—Will Rogers is to lose his job as Mayor of Beverly Hills. A committee today informed the cowboy humorist that a new State law will oust him as mayor.

"I bet it's a frame-up," said Will. "None," retorted the committee. "Beverly Hills becomes a city of the sixth class, and Will Spaulding, president of the board of trustees, automatically becomes mayor."

"Well," roared the wise-cracking mayor, "what does that make me?" "That makes you—" The committee went into a hurried conference. "Mayor Emeritus," they declared in unison.

George Leary Sued;
Maintenance Asked

Wife, Decorated by Pope,
Says Drydock Builder Has
Deserted Her.

New York, July 29 (A.P.).—Mrs. Julia May Leary, prominent in charity work, announced that she has instituted a suit for maintenance against George Leary, wealthy drydock builder. Leary recently was arrested on a charge of violating the prohibition law.

Mrs. Leary charged her husband had deserted her and said she was convinced his action was caused by her refusal to permit him to drive his car for separate maintenance against George Leary, wealthy drydock builder. Leary recently was arrested on a charge of violating the prohibition law.

NEGLECT DENIED IN DROWNING OF 27 ON EXCURSION BOAT

Captain Should Be Praised,
Not Censured, Is Testimony
at Chicago Inquiry.

SEVERAL STILL MISSING;
HIGH SEAS HALT SEARCH

Millionaire Is Credited With
Saving Many Lives as
Craft Capsized.

Chicago, July 29 (A.P.).—A four-day investigation of yesterday's excursion boat disaster in which 27 persons, mostly women and children, lost their lives today revealed no evidence of negligence or carelessness on the part of crew or owner.

None now is reported missing and authorities believe that all of the other 65 on the Favorite were saved.

Instead of culpability, inquiries indicated that the boat had been pronounced seaworthy as late as July 11 last, and that the skipper tried valiantly to save his boat when the sudden offshore squall struck it.

Fred J. Memo, district steamboat inspector from Detroit, asserted the Favorite carried twice as many life preservers as would have been required for yesterday's passenger list. Had there been any question of the boat's stability, Federal headquarters of steamboat inspection would have ordered a stability test, Memo said.

Many Preservers Inaccessible.

On the other hand, Coroner Oscar Wolf said he found that straps on a few preservers were rotten and that many of them were inaccessible. Preservers designated for children were in some instances too high to reach, he believed. The coroner's observations, however, were made informally and were not made a part of his inquiry.

The coroner selected a jury from men interested in seamanship. These included Commodore Sheldon Clark, former commodore of the Chicago Yacht Club, Isaac M. Hamilton, president of the Federal Life Insurance Co.; Edward Baker, president of the Coach & Car Equipment Co.; L. C. Wilson, sales manager of the Byrd Archer Chemical Co., and Clark C. Wright, executive of an architectural firm.

The disaster inquiry was started by William A. Rittenhouse, assistant state's attorney, who was directing the investigation for that office.

The fourth inquiry was started by Michael Hughes, chief of police, who ordered five members of the crew held. Memo has asked that survivors testify at his investigation which was given added impetus by word from Dickerson Hoover, chief of the Federal steamboat inspection, that Memo got thoroughly into the disaster.

Search for Bodies Goes On.

Although there is no official list of missing divers and coast guards today searched the lake in the vicinity of the disaster for bodies. High waves finally forced them to give up the search.

In hold relief against a background of gallant actions stands the rescue efforts of William A. Hofmann, millionaire yachtsman, and four companions, who, first to reach the foundering Favorite, saved more than a score. Chief of Police Hughes has recommended the vessel.

The Favorite is 13 years old. It was declared capable of carrying 158 passengers and its length is 64 feet. Capt. Olson said he had had the boat entirely overhauled last spring. It operated between Lincoln Park and the municipal pier, about three miles. During the summer days it was a popular excursion craft for picnic parties, who after visits to Lincoln Park, climaxed their day's outing by a trip on the lake.

Of such picknicks was the passenger list of yesterday's tragic trip composed.

Heidelberg Degree to Schuman.

Eidelberg, Germany, July 29 (A.P.).—Jacob God Schuman, American Ambassador to Germany, has been awarded the honorary degree of doctor of philosophy by the University of Heidelberg.

The ceremony was held in the presence of many guests, including the German ambassador and other officials.

CHICAGO DEATH SHIP AFTER STORM

LIBERALS ARE SAYING;
WANT HOLD REIGN
OF POWER IN HOUSE

Lloyd George's Party, Twice
Held Dead, Wins in Three
Recent By-Elections.

SLOW SOCIALISM SEEN
IN ENGLAND AS RESULT
Former Premier Will Be Able
to Elevate Laborites or
Conservatives.

By RAYMOND GRAM SWING.

London, July 29.—The candles at the funeral of the British Liberal party have been blown out. The "corpse" has come to life, stretched itself, yawned and walked into the sunlight.

Six months ago the Liberal party was dead. It was, if the language can be excused, twice dead. Not only were its leaders hopelessly divided, which is dead in itself, but there was no large graphic service for Liberalism, so the party could not hope for recruits, another form of death.

Today the Liberal party wears the tokens of three by-election victories at its belt. Lloyd George and his most relentless enemy, Viscount Grey, have agreed to a truce on the platform, coining like the doves of harmony. More than that, Liberalism has discovered a service to perform.

British Principles Defined.

This miracle is due to the war of the Tories against the Liberals. For, in deciding to form the House of Lords into a permanent Tory stronghold against Socialism, the Conservatives decided to take the Liberal party into the fold of British politics: the principle of doing things in a constitutional way. It would not be constitutional to place the reformed House of Lords beyond the law of the House of Commons. It hardly would be constitutional to reform it without consulting the nation in a general election.

Plenty of middle class people in England, neither Tory nor Socialist, were not satisfied with the Liberal party's election, talk about the Socialist menace, and to vote Conservative on that score. They might not make their votes count against the Labor party.

At that time voting Liberal meant voting against the Labor party. But the general strike broke and was weathered under Baldwin's leadership. But then came the trade union battle and the rupture with Russia, and these people began to worry in turn about the Labor party.

But they were speaking for himself and conciliation, but they did not like him when he became spokesman for his side.

Die-Hards Cause Trouble.

Even before the House of Lords reform was announced, the Liberal party had already begun showing signs of life. That was due to the die-hard reactionaries, a telephone message from the party's middle-class people—the mugs of England—changed their minds about conservatism.

But then came the trade union battle and the rupture with Russia, and these people began to worry in turn about the Labor party.

LIBERALS ARE SAYING; WANT HOLD REIGN OF POWER IN HOUSE

Lloyd George's Party, Twice
Held Dead, Wins in Three
Recent By-Elections.

SLOW SOCIALISM SEEN
IN ENGLAND AS RESULT
Former Premier Will Be Able
to Elevate Laborites or
Conservatives.

By RAYMOND GRAM SWING.

London, July 29.—The candles at the funeral of the British Liberal party have been blown out. The "corpse" has come to life, stretched itself, yawned and walked into the sunlight.

Six months ago the Liberal party was dead. It was, if the language can be excused, twice dead. Not only were its leaders hopelessly divided, which is dead in itself, but there was no large graphic service for Liberalism, so the party could not hope for recruits, another form of death.

Today the Liberal party wears the tokens of three by-election victories at its belt. Lloyd George and his most relentless enemy, Viscount Grey, have agreed to a truce on the platform, coining like the doves of harmony. More than that, Liberalism has discovered a service to perform.

British Principles Defined.

This miracle is due to the war of the Tories against the Liberals. For, in deciding to form the House of Lords into a permanent Tory stronghold against Socialism, the Conservatives decided to take the Liberal party into the fold of British politics: the principle of doing things in a constitutional way. It would not be constitutional to place the reformed House of Lords beyond the law of the House of Commons. It hardly would be constitutional to reform it without consulting the nation in a general election.

Plenty of middle class people in England, neither Tory nor Socialist, were not satisfied with the Liberal party's election, talk about the Socialist menace, and to vote Conservative on that score. They might not make their votes count against the Labor party.

At that time voting Liberal meant voting against the Labor party. But the general strike broke and was weathered under Baldwin's leadership. But then came the trade union battle and the rupture with Russia, and these people began to worry in turn about the Labor party.

Will Rogers Says Only 20-year Hero Is Walter Johnson

Special to The Washington Post.

Beverly Hills, Calif., July 29.—Lindbergh is doing great work. He is visiting each town one day, trying to interest people in aviation.

When he gets through it wouldn't be bad to have him visit Washington for at least a week and try to "sell" aviation. Don't get the idea because three of our planes flew to Europe and made it that we are ahead in aviation. It's not how far you got for the other hundred and ten million to fly in, and where are they to land when they come down?

Yours, WILL ROGERS.

P. S.—August the second, which is Tuesday, don't forget the national anniversary celebration of Walter Johnson at Washington, D. C. He is the other Swede that Lindbergh copied in showing the world how to be great and still be modest.

Something to help round out a great sportsman's career. Remember, next Tuesday, the only man in America that stayed a hero for twenty years.

British Cabinet in Session; What Will Washington Do, All Now Ask.

FOUR 8-INCH SHIP IDEA DISPLEASES JAPANESE

British Again Emphasize View That Large Guns Are Offensive.

London, July 29 (A.P.).—The situation at the tripartite naval conference in Geneva, as outlined in messages from the British cabinet and the Japanese government, was considered at a cabinet council today. It was authoritatively stated tonight, however, that no special significance attached to today's meeting.

The cabinet is said to have made no fresh decisions. It is understood that the ministers had before them nothing in the shape of an official reply from Washington to the proposals which the British have submitted to the naval conference.

Another cabinet council was expected to be called on Monday to receive any further communications from Mr. Bridgman and Viscount Cecil, who are expected to arrive in London from the plenary sitting of the conference on that day. It was said that this council might be of a more critical nature than that of today.

The hurried calling of today's cabinet council was explained as being due to the fact that, through an oversight, the ministers had not been warned overnight of a meeting, as is customary.

Geneva Looks Hither.

Geneva, July 29 (A.P.).—What will Washington do? This was the question which everyone seemed to be asking tonight in British, Japanese and other non-American circles of the tripartite naval conference.

Hugh Gibson, chief American delegate, told the British and Japanese plenipotentiaries yesterday he was convinced that the latest British plan was entirely unacceptable. He added, however, that he would transmit the text to Washington.

The Japanese delegation authorized the Associated Press tonight to deny the report which has been circulating abroad that the Japanese will mediate between Great Britain and the United States. A spokesman for Admiral Saito said that the Japanese deemed the latest British plan to be a nature to justify intervention, because the latter was one of principle and not of technicalities.

The Japanese spokesman added that if the difficulty between the British and the Americans was one concerning a difference in total tonnage or in the given number of warships in any particular class, the Japanese might see their way to offer their services to mediate with some reasonable hope of success. He could not see the way clear for mediation, however, when there is a problem of principle due to the American opposition to the 8-inch gun cruiser and to America's desire to maintain freedom concerning the construction of 8-inch gun secondary cruisers.

Japanese Pessimistic.

The Japanese continue pessimistic concerning the outcome of the conference. They seem particularly desirous that if the conference adjourns without achieving its purpose, this should be done without anything being publicly said at the final meeting which might provoke friction or lead to misunderstanding among the powers involved.

The Japanese idea is, and it is said to be the idea of the Americans also, that the delegates should separate quietly with moderately phrased statements that they had been unable to agree because of an honest difference of opinion on the various problems submitted to them.

The suggestion emanating from British circles today, that the British would discuss favorably any American proposal for a certain number of 8-inch gun cruisers for United States in addition to those permitted under the British plan, has apparently had no official follow-up. The British idea has not been communicated to the American delegation. Furthermore, the Japanese look askance at the suggestion, as probably involving an increase in the total tonnage of cruisers, which the Tokyo delegates desire to keep at the lowest possible level.

This suggestion was that the American delegation ask for the right to build more 8-inch gun secondary cruisers than is provided for under the British plan submitted yesterday and that the British would look favorably upon such a proposal, provided the British total tonnage in cruisers was raised in proportion.

Under this plan the United States would probably build four 8-inch gun secondary cruisers to counterbalance the British cruiser York and four British cruisers of the Hawkins class, it was said.

Insist on Liberty.

While the Japanese would be content with restricting the number of their 8-inch gun secondary cruisers to four during the life of the treaty—ten years they made it clear tonight to the correspondent of the Associated Press that they would insist in principle upon liberty of action for this type of cruiser. They said they did not wish the number of four to be used as a precedent in any future negotiations.

The Japanese also announced that they now were disposed not to accept the British suggestion that each power may retain 25 per cent in the form of obsolete warships over and above the total tonnage mentioned in the British plan. They said their naval experts had advised them that 15 or 20 per cent would be more reasonable.

Although the Americans still refuse to comment on the British plan, it is understood that they find it particularly hard to swallow the last paragraph of that plan which is said to permit transfer of tonnage from one category of warships to another. It is said that under such a plan Great Britain could, in principle at least, could put all of the 590,000 tons allocated for all auxiliary warships into cruisers, plus 25 per cent allowed for obsolete ships. This would make a grand total of 737,000 tons.

The Americans object to this clause on the ground that it would create great uncertainty as to what type of warships the nations would build, and in a general way lead to competitive construction. This, it is pointed out, is the very thing the conference was convoked to prevent.

British Reiterate Stand.

The British spokesman again emphasized today Great Britain's desire to restrict the number of so-called offensive warships. He said that no real limitation could be achieved unless the nations could agree upon the exact number of powerfully armed cruisers which could be constructed. The British express the belief that 8-inch gun cruisers, whether 10,000-ton vessels or warships of lesser size, capable

COW FOUND TO PRODUCE VITAMIN B IN STOMACH

Jessie, With Door Cut Into Her Digestive System, Is Viewed by Chemists.

INCUBATOR DOES WORK

State College, Pa., July 29 (A.P.).—"Jessie," the famous Pennsylvania State College cow that has been robbed of her gastronomic privacy through a door to the largest of her several stomachs as a contribution to science, was the center of attraction for the group of vitamin and nutrition specialists attending the final session today of the Institute of Chemistry of the American Chemical Society. A little incubator in Jessie's stomach has been found to give evidence of one of the most important vitamins and nutritional factors, vitamin B. It has been found that this incubator to manufacture in wholesale lots the highly valuable vitamin B.

Jessie never has been given any feed that contained vitamin B. It has been kept from her mother before her, and she has a calf of her own, the third generation to be deprived of this valuable material.

But Jessie's milk, as well as that of her mother, contained vitamin B. Dr. M. I. Meckel, of the Penn State dairy department, had a door cut into Jessie's second stomach. Samples of stomach contents were taken out, analyzed by Prof. H. C. Knutsen, of the college bacteriology department and found to be literally alive with vitamin B bacteria.

So far as known the cow is the only animal that has ability to thrive on feed lacking in this necessary vitamin. "It is entirely possible that cultures of vitamin B can be taken for human consumption direct from the stomach of Jessie or other cows as a source of concentrated vitamin B," said Dr. M. C. Sherman, of Columbia University. In diseases caused by lack of vitamin B this culture would be invaluable.

Jessie is as lively and contented as when the doorway was cut in her stomach.

The suggestion emanating from British circles today, that the British would discuss favorably any American proposal for a certain number of 8-inch gun cruisers for United States in addition to those permitted under the British plan, has apparently had no official follow-up. The British idea has not been communicated to the American delegation. Furthermore, the Japanese look askance at the suggestion, as probably involving an increase in the total tonnage of cruisers, which the Tokyo delegates desire to keep at the lowest possible level.

This suggestion was that the American delegation ask for the right to build more 8-inch gun secondary cruisers than is provided for under the British plan submitted yesterday and that the British would look favorably upon such a proposal, provided the British total tonnage in cruisers was raised in proportion.

Under this plan the United States would probably build four 8-inch gun secondary cruisers to counterbalance the British cruiser York and four British cruisers of the Hawkins class, it was said.

Although the Americans still refuse to comment on the British plan, it is understood that they find it particularly hard to swallow the last paragraph of that plan which is said to permit transfer of tonnage from one category of warships to another. It is said that under such a plan Great Britain could, in principle at least, could put all of the 590,000 tons allocated for all auxiliary warships into cruisers, plus 25 per cent allowed for obsolete ships. This would make a grand total of 737,000 tons.

The Americans object to this clause on the ground that it would create great uncertainty as to what type of warships the nations would build, and in a general way lead to competitive construction. This, it is pointed out, is the very thing the conference was convoked to prevent.

The British spokesman again emphasized today Great Britain's desire to restrict the number of so-called offensive warships. He said that no real limitation could be achieved unless the nations could agree upon the exact number of powerfully armed cruisers which could be constructed. The British express the belief that 8-inch gun cruisers, whether 10,000-ton vessels or warships of lesser size, capable

of mounting 8-inch batteries, must be classed in this category and subjected to genuine limitation.

At the meetings of the chief delegates took place today and none is scheduled to be held before Monday, when a plenary session of the conference will be held under present arrangements. However, it is possible, owing to the fact that the Swiss national fête day falls on Monday, that the plenary meeting may be adjourned, since the public communication services would be less speedy on account of the holiday.

Admiral Saito has made reservations to proceed to Tokyo on a Japanese steamship sailing from Naples about August 15. His friends have counseled him against returning overland on the Transiberian route because of the presence in Russia of numerous Koreans who are said to be violently opposed to Japanese rule in Korea over which the admiral is governor general.

Misses No Class in Years.

Ocala, Fla., July 29 (A.P.).—Mrs. Mary G. Smith teaches school in the winter and attends college in the summer. In twelve years of summer school study she has neither missed a class nor been tardy.

CAPITAL EXPECTS COLLAPSE OF NAVAL ARMS MEETING

CONTINUED FROM PAGE 1.

larger cruisers in the event that any power embarked on a large cruiser building program.

"We were alarmed," he said, "when at one time the figure of 25 large 10,000-ton cruisers with 8-inch guns was suggested as a possible requirement for America with the possibility of a further number of smaller cruisers with 6-inch guns. At the same time we understood that we should have to agree in advance to a total tonnage of 400,000 tons."

"What would this mean for us? That we would have to agree to an arbitrary figure to represent the force necessary for our security without even knowing the character of the cruiser fleets of other nations."

At the same meeting, Admiral Jellicoe declared that Britain would require at least 70 small cruisers to cope with possible future raiders and declared that Britain trade routes, etc. During the outbreak of the World War and discovered she needed more, Admiral Jellicoe said.

"If, under these conditions, 114 proved inadequate it can be said that 70 is now excessive?"

COOLIDGE HELD TO HAVE LOST HOPE IN GENEVA ARMS PARLEY

CONTINUED FROM PAGE 1.

embark immediately on a naval program that would be second to none in the world.

This reporter interpreted them in neither of these lights. Instead, his impression was that the President reluctantly has yielded to the view that no agreement will be reached at Geneva. Certainly it will not be reached on the basis of the British proposals.

Fights Against Pessimism.

As concerns the thought that if it does fall this country will launch an ambitious naval policy, observers pointed out that this would certainly be the other extreme of the President's mental calculations. And it is believed by those of this trend of thought that he would yield to increased naval expenditure very begrudgingly.

It is known to be his thought that if the parley fails, this country will be right where it was before in the matter of naval comparisons. And while he would not say today what would be the policy of the Government in this event, it is in detail and these papers are in the hands of the President's staff, this country's defense is comparatively adequate, whether it matches that of Great Britain or not.

The President apparently has fought stubbornly against becoming pessimistic about the conference. The representations in his behalf today were, in fact, the first pessimistic note true that the full picture of the conference has been slow in developing out here. Members of the papers arrive in Rapid City from one to two days late. The President previously had made known that the State Department had not been passing the word to him, but had continued its communication to the more formal channels, as passed between Washington and Geneva.

CLERGYMAN, DIVORCED, REWEDS; IS DEPOSED

Bishop Manning Announces Unfrocking of Former Curate of Dr. Grant.

New York, July 29 (A.P.).—The Rev. Harold Arthur Lynch has been deposed from the ministry of the Episcopal Church because, having been divorced, he remarried in violation of the canons of his church, it was officially announced in the Churchman today by Bishop William T. Manning.

Mr. Lynch's deposition, Bishop Manning stated, came "after he had declared to me in writing his renunciation of the ministry and having asked to be deposed solely because of his marriage contrary to the canons."

As the Rev. Mr. Lynch was reported as being out of the city and Bishop Manning is in Europe, no detailed information could be obtained regarding the facts of the case. It was learned, however, that the marriage took place between May 31 and June 18 of this year, and that the present Mrs. Lynch was a divorcee.

The Episcopal Church forbids divorced persons to marry, the only exception being made in the case of the innocent party, who obtains a divorce on grounds of adultery.

Mr. Lynch was graduated from Union Theological Seminary in 1914, but previously had obtained his degree from General Theological Seminary. From 1915 to 1921, he was assistant to the late Rev. Percy Stickney Grant, and from 1922 until last May was assistant to the Rev. William Norman Guthrie.

Two Pacific Aviators, Guests at Luncheon

Entertained by Air Commerce Chamber; Medals Are Presented.

New York, July 29 (A.P.).—Aerial conquerors of two coasts met today around tables of honor on the roof of the Waldorf-Astoria Hotel. The occasion was a luncheon by the Aero-nautical Chamber of Commerce of America in honor of Lieuts. Maitland and Hegenberger, heroes of the historical flight from San Francisco to Honolulu.

Among "those present" besides the Pacific fliers were Brig. Gen. Fehet, Assistant Chief of the Air Corps, U. S. A.; Anthony H. G. Fokker, designer of planes used to cross both the Pacific and the Atlantic; Lieut. Noville, of the crew of the America, and Assistant Secretary of the Navy Warner.

All the speakers emphasized the importance of the Pacific hop.

Clifford B. Harmon, president of the International League of Aviators, who has just returned from Paris, presented gold medals of honorary membership to Lieuts. Maitland and Hegenberger similar to those presented to Col. Lindbergh and Commander Byrd at the league receptions in Paris.

Nungesser-Coli Fund Delivered to Envoy

New York, July 29 (A.P.).—The American committee of the Nungesser-Coli fund today turned over to Paul Claudel, the French Ambassador, a check for \$31,186.44.

The money will be transmitted by the ambassador to the president of the French Republic with instructions that one half of it be delivered to the mother of Capt. Nungesser and the other half to the mother of Capt. Coli.

RED MEN DECLARE NAMING PRESIDENT IS CORONATION RITE

No Light Matter, Two Descendants of Indian Royalty Assert.

NAME BANDIED ABOUT, THEY DEMAND NEW ONE

Coolidge, Country Rider, Will Not Use His Horse in Capital.

(By a Staff Correspondent.)

Rapid City, S. Dak., July 29.—The President made known today that it is hardly likely that he and "Kit" will prance up Pennsylvania avenue or any of the Rock Creek bridge paths. Frankly speaking, the President wants plenty of room when he rides. In Washington the bridge paths are not so wide, at least not wide enough for him, and then they frequently come out upon streets that are plied by automobiles.

Out here it is different. The trail is either so narrow that the horse can do nothing but go along straight ahead or else there is plenty of room in which he may cavort to his heart's content without running the risk of opposing more modern means of transportation.

All told, the President is not a city slicker when it comes to riding. His past riding experience all had to do with the farm and wide spaces. Therefore he will confine his future riding exploits to them. Furthermore, there is the business of donning chaps and boots and the like, the President made known. And back in Washington he does not have time for this.

Still Considers Havana.

He made known that he still has open the matter of attending the Pan-American congress in Havana next year. Many things must be taken into consideration, such as the propriety of a President leaving the country and the like, but these questions all are being studied and he is hopeful he will be able to make the trip.

Getting around to the place of residence when he returns to Washington, he is doubtful if the White House will be completed. There will be considerable work of cleaning up about the premises when the repairs have been completed, and he does not expect everything to be in readiness to receive him. This being the case, he will return to Dupont Circle.

Another matter that should go in the day's report concerns his acceptance into the Sioux tribe at Deadwood, August 4. Some of the correspondents have had quite a good time writing about the dissemination among the Indians because the name to be given the President, "Leading Eagle," was permitted to leak out, but there are definite indications that it is no light matter.

Another Name Sought.

It develops that the Indians did have a ruling or royal household, and that the bestowal of a name upon Mr. Coolidge is tantamount to the coronation of a king. Two direct descendants of this household which once controlled the Ogallala Sioux, or the Red Cloud dynasty, came here today and indicated rather definitely that some other name for the President would have to be evolved. They were James Arapahoe, of Pawuska, Okla., formerly of the Pine Ridge reservation near here, and James Red Cloud. They were the advance guard of 800 Indians who are to camp here Sunday en route to Deadwood.

"The Ogallala Sioux are without a ruler," said Arapahoe. "The mantle, eagle feathers and the robes of the royal family hang in the Red Cloud lodge without an owner." So the idea

is to make Mr. Coolidge the head of the royal household and it is not any light matter. It is an expensive one. Arapahoe has two war bonnets costing \$600 each to give the President, and a tribal costume, all of it costing \$2,500. The tail feathers of the bonnets were taken from six eagles.

LOWMAN SAYS DRY WAR WILL CONTINUE, DESPITE HANDICAPS

Declares Federal Force Will Not Relax Efforts for Enforcement.

ASSERTS MINOR CASES ARE HARD TO HANDLE

Assistant Secretary Holds Conditions Are Improving, in Spite of Difficulties.

(Associated Press.)

Regardless of handicaps, the Federal authorities will not relax their efforts in any way "for full and complete enforcement" of the prohibition law in New York, declared Assistant Secretary Lowman yesterday.

Recognizing that rigid enforcement matters it is extremely difficult to deal with the area to which it is assigned, Lowman asserted that these factors would not hinder efforts of enforcement.

"In the States where there are no State enforcement laws, and the local courts have no jurisdiction over liquor matters it is extremely difficult to deal with minor violations of the Volstead act," said a statement issued by Mr. Lowman. "New York State is in point."

"No conclusion should be drawn from the foregoing that the Federal authorities will in any way relax their efforts for full and complete enforcement."

Holds Force Inadequate.

Enlarging on his previous declaration that complete prohibition could not be brought about for some time, even though the enforcement squad was increased, Assistant Secretary Lowman said that when the citizens of New York become more interested in prohibition enforcement and enact a State prohibition law, considerably more could be accomplished in the way of law enforcement.

The present force of approximately 350 agents is "rather inadequate to undertake such a job," he said.

Pointing out the handicap of inability to prosecute prohibition cases in other than Federal courts, the Assistant Secretary declared the Treasury had detailed as many agents to New York and also to Maryland "as is fairly possible."

Both Lowman and Commissioner Doran declared conditions were improving in New York despite the enforcement difficulties. They pointed out that since June 29 37 distilleries and wildcat breweries had been suppressed in Buffalo.

Members of W.C.T.U. Learn Reporter's Art

Minneapolis, July 29 (A.P.).—Members of the Women's Christian Temperance Union are learning to write up their achievements in behalf of prohibition enforcement.

They are studying new writers, with Arapahoe and Commissioner Doran, and journalists teaching them how to prepare copy.

is to make Mr. Coolidge the head of the royal household and it is not any light matter. It is an expensive one. Arapahoe has two war bonnets costing \$600 each to give the President, and a tribal costume, all of it costing \$2,500. The tail feathers of the bonnets were taken from six eagles.

Irish Taught to Fight By United States Army

The United States Army is teaching the Irish how to fight, the War Department having authorized Army officers of the Irish Free State to receive training as follows at the request of their government:

Col. Hugh MacNeill and Capt. Joseph Dunne are authorized to study organization and administration of the National Guard with the Militia Bureau of the War Department in this city, and National Guard troops in the field. Col. MacNeill has just completed a course at the Command and General Staff School, Fort Leavenworth, Kans.

Capt. Michael Costello and Capt. Patrick Barry are authorized to receive instruction at Governors Island, N. Y. Lieut. Charles Trodden, who finished a course at the Field Artillery School, Fort Sill, Okla., in June, will be attached to an organization at Fort Monroe or Fort Eustis, Va., for two months, and Lieut. Sean Collins-Powell will attend the tank school at Camp Meade, Md., for two months.

500,000 LOST YEARLY BY CHURCHES IN U. S.

CONTINUED FROM PAGE 1.

The Presbyterian Church in the United States, the oldest of the Presbyterian churches, told of a loss of 300,000 members in the last six years, or an average of 50,000 annually.

Small Net Gain Made.

The net gains of the Methodist Episcopal Church South, having an aggregate of more than 2,500,000 members, were reduced in 1926 to 4,199, the smallest figure in years, according to Curtis B. Haley, its statistician.

The losses of the Disciples of Christ, denomination of Baptist principles and polity, "were beyond all expectation," according to the Rev. Jose M. Beader, secretary of evangelism, who reported that 1926 "had been marked by unusual evangelistic activity, but when the returns were counted it was found that instead of a net gain there was a net loss of nearly 5,000."

The Protestant Episcopal Church, according to Frederick C. Morehouse, editor of the Living Church and of the United States Steel Corporation, suffers an annual loss of 22,000 communicants, which he says is the minimum figure.

An annual average of loss of 11,000 members of the Reformed Church in the United States, and 3,416 by the annual loss of the Reformed Church in America were reported by its representatives.

DU PONT FINANCING TO BE INVESTIGATED

CONTINUED FROM PAGE 1.

and that the General Electric Co. owns an equity in the Radio Corporation of America.

Du Pons Have Nothing to Say.

Wilmington, Del., July 29 (A.P.).—In the absence of Pierre S. du Pont, president, and other officials of the E. I. du Pont de Nemours Co., the only statement obtainable tonight regarding the Federal Trade Commission's inquiry into the relationship between the du Ponts, General Motors and United States Steel, was issued by the publicity department. It read:

"Officials of the E. I. du Pont de Nemours Co. said today they knew nothing of the proposed investigation by the Federal Trade Commission of the company's holdings in General Motors and United States Steel. The officials further said, knowing nothing about it, they had nothing to say."

APPEAL PERMITTED IN FIGHT BY SOUTH FOR BALLOT BOXES

Pennsylvania Case Will Go to Court of Appeals Under Philadelphia Ruling.

JURISDICTION IS DENIED BY U. S. DISTRICT JUDGE

Delaware County Authorities Restrained From Disposing of the Votes.

Philadelphia, July 29 (A.P.).—Judge J. Whitaker Thompson, of the Federal District Court, today allowed an appeal from his decision to the United States Circuit Court of Appeals in the matter of turning over to the Senate investigating committee the ballots cast at the last senatorial election in Pennsylvania.

At the same time Judge Thompson issued an order, restraining the Delaware County authorities from disposing of the ballots cast at that election, pending a final decision by the appellate court.

Judge Thompson, in his recent decision, decided that he had no jurisdiction in the matter of deciding whether the Red committee had any official evidence and declared that it was for the United States to decide that question.

Jerry C. South, representing the committee, of which Senator Reed, of Missouri, is chairman, represented the committee in the proceedings today. He said he had in mind asking for court orders against all officials in Pennsylvania having ballots in their custody restraining them from destroying the ballots or other election documents until the appellate court makes its decision.

May Be Due to Watson Move.

Whether this contemplated action by the Reed committee was prompted by the proposed move of Senator Watson, Indiana, chairman of the Senate committee on privileges and elections, to have this committee take up the investigation of the senatorial election in Pennsylvania, Mr. South did not say. Senator Watson is canvassing the members of his committee for authorization to proceed to take possession of all ballot boxes in Pennsylvania.

Primaries will be held throughout Pennsylvania in September and it was feared that unless some action was taken to preserve the ballots cast last November and now locked in boxes that will have to be used at the primary, many of the ballots would be destroyed or become lost.

The investigation of the senatorial election is the result of a contest by William B. Wilson, Democrat, against Representative William S. Vare, Republican, who holds the certificate of election as United States Senator.

The ballots cast in Philadelphia County and in Allegheny

Wives of Tomorrow

By FRANCES McDONALD

Did You Face This Question?

WILL some of the young women who read this column reply frankly to the girl whose letter follows? Will you tell her just how you managed on a small income to provide for the child your heart desired? She is working. Her husband is working. They have health. They have love. Yet one can see how far from happy must be their life! If you faced this problem of a good husband and a small income, and a great desire—won't you tell which way you decided and why? Here is the letter which speaks for itself.

The best of everything and the highest education is essential apparently. But even had I known before marriage what his salary was and would be I doubt if I would have given it a thought as I am not the type to be engaged. But since marriage I have had ample time to think. I work and we have some but it is pitifully small. I wonder sometimes that people can go through life without the things they desire and just merely exist. I absolutely refuse to have a child and then go back to work and allow some one else to raise my baby and yet if I'm to have a child it looks as though it were the only way. Can you wonder what a practical girl "looks before she leaps" these days? I am afraid I shall lose my love for my husband through disappointment at not being able to raise a child, but although he knows how I feel and loves me, he does not have the business ability to get started on anything with a promising future. What would you do, Miss McDonald. These girls who have husbands with good incomes and can raise one or two children should be eternally grateful to the Fate that made life so smooth for them. May I expect advice from your readers? The years are passing and I am becoming bitter. Has some other woman faced the same fate?

UNCERTAIN.

HOW TO KEEP WELL

By DR. W. A. EVANS

CHILD DELIGHTS IN HURTING THINGS.

M. C. K. writes: I have a problem that is going to make my life a little more of a torment by the time it is this. I have a 3½-year-old girl, who delights in hurting things. For example, she was given a kitten about 3 weeks old. She took it into the bedroom and played nicely for a while. Pretty soon I saw the kitten falling to one side, yelping dreadfully. She admitted rolling the wheels of her crib over it, and I think it is dying. She put baby brother's hand against the hot oven, burning it. She also pinches and bites. Now do not think that I don't punish her, for I do. I have a real whip, and I have gone so far as to cane her stripes on her legs, but to no avail. I also sit her in a chair for hours as punishment, without success. I have tried reasoning with her, telling her how she would feel if she were in her victim's place, and even that does no good.

My husband and I have always treated animals as they should be treated, and have always loved them, so we do not understand where she gets

her meanness. I am a trained nurse, and have tried to prevent her being spoiled. I think I have succeeded in other ways, but this problem is worrying me sick for fear of her becoming the sort of woman who, in years to come, will cause people to look back and say, "Well, she was mean, even as a child." I am so nervous I can barely write, and I have just trampled her so hard and sat her in a chair.

REPLY: If your child were a little older we would say she was sadistic. Perhaps it would be proper to use the term anyway. I get the idea you are taking this thing too seriously. I think you are punishing her and yourself too much. If she has rather ingrained sadistic tendencies you will not overcome them by poor thought-out punishments. In the first place, "licking" and such punishment are somewhat sadistic and may be suggestive. You inflict corporal punishment on the child and she follows your example and licks the cat. I am not at all certain that punishment carefully thought out to time of administration and kind of punishment may not be helpful. I think Dr. Sachs has that about right. Therefore, put some thought on your problem.

By the same token, get less emotion out of it. I suggest patience and perseverance on your part. Take the time to read some of Healy's books and books of others on problem children. If you will read, think and be patient and kind, you will come out all right. And so will the kid.

THE PIMPLY AGE.

R. M. writes: I am a boy of 15, and I have a bad face. Something like pimples breaks out, and they are so sore I can hardly touch them. I have used soap and witch hazel, but neither seems to have any effect. Please advise.

You are not the first boy who has had pimples nor will you be the last. The pimply age was not one of Shakespeare's ages of man, but it may have been. Pimply faced boys usually survive to a useful age and some of them become Presidents. To avoid pimples work very hard at play or work, sweat profusely, keep the skin very clean, steam off the dirt and grease occasionally. Avoid desserts and sweets, including sweet drinks and candies. Cultivate good bowel habits. Squeeze out the blackheads before they become sore. Exposure of the skin of the face to rain, snow and sleet is helpful.

JUST FOLKS

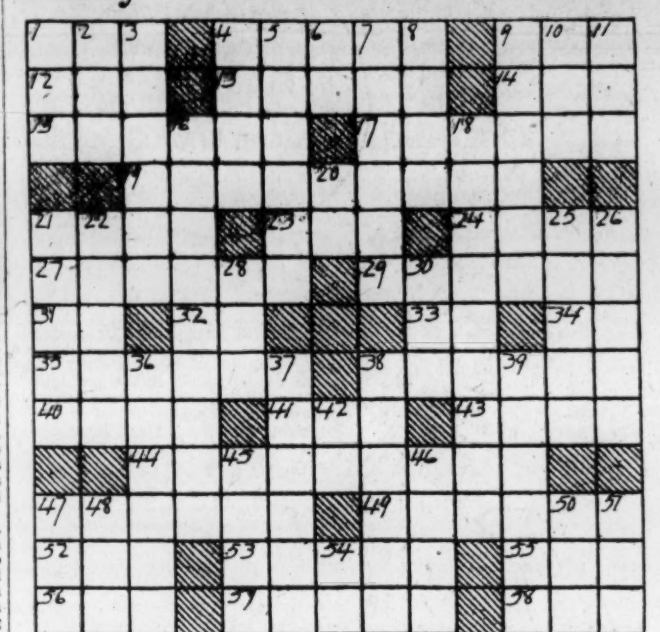

By EDGAR A. GUEST

IN THE GARDEN. Pansies and peonies and phlox in bloom together. And all the beauty in the box of summer weather. Spilled there to make a twilight fair. But all he saw was golden hair. A colony of martins flew above them lightly. The setting sun upon the view was shining brightly. About them was a flood of grace. But all he saw was just her face. In vain the roses bowed and swayed. The tender greenery. The glimmering change of light and shade. Which lit the scenery He never noticed. She was there! To him the fairest of the fair.

Beauty for other eyes must be. On lovely successful. For all that young man failed to see. Grant him your pardon. Some day he will return to find That charm to which he now is blind. That charm to which he now is blind.

(Copyright, 1927, Edgar A. Guest.)

Daily Cross-Word Puzzle

If unfamiliar with the definition given for Horizontal 4, think of "Eelpouts," or "Part of the defensive armor of a horse in medieval times," or yet a "Poet or song writer."

For a Hot Day in Town

(Copyright, 1927.)

How Many Can You Answer?

Each question counts 10. If you answer eight correctly, your intelligence rating is 80 per cent. Actual tests reveal that eight out of ten correct is college standard; six out of ten correct is high school standard; four out of ten correct is grammar school standard. Less than four correct is uneducated standard.

1. In the works of what author does Mr. Turveydrop appear?
2. With what sport is Belmont Park associated?
3. In pre-Civil War days what was the underground railroad?
4. Which Canadian city has the largest population?
5. Who created the Yahoos?
6. What are the politics of the New York Times?
7. How do ants communicate?
8. What two automobiles does Henry Ford manufacture?
9. Is "Crime and Punishment" the work of Laura Jean Libby, Paul Morand, Fedor Dostoevsky or Rudyard Kipling?
10. Who is the Assistant Secretary of War for Aeronautics?

Mr. Work's Pointer On Auction Bridge

THE pointer for today is: SOME FEW HANDS SHOULD BE BEHOLDEN IN THE SECOND HAND POSITION, BUT NOT BY DEALER.

Yesterday's Hand. (Held in No. 17 by South; in No. 18 by West; in No. 19 by North; in No. 20 by East.)

My answer slip reads: No. 17. South (Dealer) should pass. No. 18. South pass; West should bid one No Trump. No. 19. South pass, West one Club; North should pass. No. 20. South one Club, West double, North three Clubs; East should bid three Spades. My reasons in support of these declarations are: No. 17. There are some super-experts who, as Dealer, bid a No Trump with two Aces and one King; but the practice is attended with serious danger even for the most skillful, and for others is distinctly unwise. No. 18. The fact that Dealer has passed usually does not warrant a bid by Second Hand with cards on which Dealer should not have bid; but there are some few close hands with which either bid is doubtful, the advisability being rather against the bid for Dealer and rather in favor of it for Second Hand. This is a hand of that character: the combination of two Aces, one King and a number of intermediates (Tens and Nines) justifies an initial bid (after a pass by Dealer) by a Second Hand whose playing is dependable. No. 19. A clear case of pass. The partner already has passed, and the hand contains no bid that deserves serious consideration. Partner having passed, it lacks by at least two cards the high-card strength requisite for a double. No. 20. West has doubled, asking for a Major if East have one of four or more cards. East not only has four Spades, but considerable strength in that suit, and unquestionably more side strength than West can anticipate. Clearly North's jump was made in an effort to shut out East; but East should not permit that effort to succeed.

(Copyright, 1927.)

BEAUTY AND YOU

By VIOLA PARIS

QUESTIONS AND ANSWERS. Dear Viola Paris: I am 22 years old, 5 feet 6 inches tall and weigh 135 pounds. I should like to lose about 10 pounds, but don't seem to be able to do it. I am especially large around the hips and thighs. I should greatly appreciate your information.

Answer—If your bony structure is average—neither large nor small—you need lose only 10 pounds to be correct weight. A normal nonfattening diet and the following localized exercises, will, no doubt, give the desired result. 1. Standing with feet together and hands on hips, bend the knees until you are resting on your heels. Hold for a moment, then rise and repeat without losing balance. 2. Lying at full length, keep the feet on the floor and rise to sitting position. 3. Lying flat on your back, raise both legs into the air and make the movements of a bicycle rider. These are exercises that I would recommend to all of my readers who have been asking for movements to reduce the hips and thighs.

Dear Viola Paris: Can you tell me of a really good bleach—something that will actually make my neck look more related to my face? I use brunette powder, but still my face looks about five shades lighter than my neck.

M. D. (AND OTHERS). Answer—I should like to tell you of excellent products made by specialists, but as you know I can not give trade names in this column. The following formula can be made up by any druggist, and has proven a satisfactory mild bleach in many cases. 1 ounce glycerine 2 ounces lactic acid ½ ounce rose-water. The mixture should be well shaken and applied to the dark skin with absorbent cotton.

Dear Viola Paris—I am troubled about my lips. In spite of all the creams and softening lotions I use, they peel continually. I use a liquid lip rouge that contains alcohol. Does that dry the lips? What should I do for crooked front teeth?

A CONSTANT READER. Answer—Your circulation, no doubt, needs stimulation. Be as active as possible in the fresh air and make a set of exercises part of your daily routine. Supplement the liquid rouge with one made with an oil base, and never go to bed with even the faintest bit

Conduct and Common Sense

By ANNE SINGLETON

THE YOUNGER SISTER

LADY wrote the other day to ask how much gaiety might be allowed to a girl still at school, when an elder sister had graduated and was being introduced into society. The elder sister was to have a luncheon and an afternoon tea, and the question was whether the younger one might attend these functions. It seems ridiculous to quote customs when the circumstances are unknown.

On Cut Flowers

DEAR JIMMY: It always seemed to me that the garden which keeps all its flowers to itself and supplies none for the vases in the house only half does its job in life. And also that the gardener who overlooks his opportunities to realize 100 per cent on flowers as room decorations misses a lot. People don't always know that the successful keeping of cut flowers in the house hinges largely upon a combination of factors which, though they may seem unimportant individually, total a considerable influence. Attention to all of them will go far toward increasing the pleasure of flowers used in this way.

First, there is the matter of cutting them cleanly with sharp scissors before the heat of the day and placing the butts of their stems immediately in a pall of deep, cool water. Then they should be kept for several hours in a cool, dark place before being put in the vases in various parts of the house. Subsequently the water in which the flowers stand is changed every day as long as the blossoms last. It will prolong their freshness if an inch or so is snipped off the butt of each stem every time fresh water is supplied. At no time after they are cut from the parent plant should the stems be allowed to remain out of water, else particles of air will enter the pores through which the water is absorbed and effectively block its upward passage to the foliage and blossoms where it is most needed.

As always, GARDNER. (Copyright, 1927.)

CAPITAL SOCIETY EVENTS

THE SECRETARY OF STATE and
Mrs. Frank B. Kellogg will go to
Buffalo, N. Y., Saturday night.
They will attend the opening of the
Peace Bridge there on Sunday after-
noon and will return here on Monday.

The Minister of Haiti and Mme. Price
will have, as their guest, the latter's
niece, Mrs. Paul Borio, who will arrive
soon.

The Secretary of Commerce, Mr.
Herbert Hoover, who has been making
a tour of inspection, is now at Palo
Alto, Calif., where he joined Mrs.
Hoover at their home. The Secretary
will remain there a week or longer and
will then continue his tour. He will
return to Washington about the end
of August.

Herr O. C. Kiep, Counselor of the
German Embassy, and Dr. Rhinbold,
German financier, are at Williamstown,
where they will attend the course of
lectures at Williams College, Mass.

Mr. Shigenori Togo, First Secretary
of the Japanese Embassy, and Mr.
Toshito Satow, Third Secretary of the
Embassy, are now at Williamstown,
Mass., where they arrived several days
ago.

The Minister of China, Dr. So-Ke
Alfred Sze, met his son, Mr. Sze Sze,
in New York yesterday, when he arrived
on the Aquitania from England, where
he attended school. The Minister and
his son now are at Buena Vista, Pa.,
with the other members of the family.

The assistant military attaché of the
French Embassy, Maj. E. Lombard, and
Mme. Lombard expect to go to New
York the first of the week. They will
sail on Friday to pass the remainder
of the summer abroad.

Mme. Thénault, wife of the assistant
military attaché of the French Em-
bassy, Maj. George Thénault, who has
been with him at the Chevy Chase
Club, has joined her mother, Mrs. Spen-
cer, on Cape Cod.

Return to Capital.

The charge d'affaires of the Legation
of Bolivia, Senor D. George de la Barra,
and Senor Bosa de la Barra, who have
been in New York since Monday, re-
turned Thursday evening.

Mr. James C. Dunn, secretary of the
American Embassy in Brussels, and Mrs.
Dunn will come here the first of Oc-
tober. Mr. Dunn will be at the State
Department.

Mr. J. Morton Howell, United States
Ambassador to Egypt, arrived yesterday
at the Willard.

Senator and Mrs. George H. Moses
expect to arrive at Crawford House in
the White Mountains to be the guest of
Mr. and Mrs. William A. Barron on
Monday. Senator and Mrs. Moses plan
to pass the summer in the north and
will not return until the fall.

Senator Robert F. Wagner, of New
York, is the guest of Mrs. Charles F.
Murphy and her son-in-law and daugh-
ter, Mr. and Mrs. James A. Foley, at
their home at Southampton, L. I.

The former Secretary of the Navy
and Mrs. Edwin Denby are at the St.
Sauveur Hotel, Bar Harbor, where they
will be for the remainder of the season.

Mrs. Ulisses S. Grant 3d, who has
been visiting her father, Mr. Elihu
Root, at Clinton, N. Y., now is at Wil-
lamstown, Mass.

Col. George C. Thorpe has joined Mrs.
Thorpe at Newport, R. I., where they
are the guests of Miss Martha Codman.

Depart for North.

Lieut. Comdr. and Mrs. Theodore Wil-
kinson went to Narragansett, R. I., yes-
terday, where they will pass some
weeks.

Mrs. Warwick Emile Montgomery and
her daughter, Miss Mary Montgomery,
who have been in Europe for about
five months, returned on the Olympic

this week and are now the guests of
Mrs. Edward Douglas White at New
London, Conn.

Mr. and Mrs. Wilton J. Lambert are
at the New Ocean House, Swampscott,
Mass., where they expect to pass the
remainder of the summer.

Mrs. Lawrence Heap has joined her
son-in-law and daughter, Mr. and Mrs.
Johnson Ward, of Merion, Pa., at Hot
Springs, Va.

Mr. and Mrs. Francis Savage will
pass the week-end at the Eastern
Shore, Md.

Representative and Mrs. Loring M.
Black are passing the summer at Long
Beach, N. J.

Mr. and Mrs. Dudley Morgan, of
Tulsa, Okla., who have been the guests
of Mr. and Mrs. Dudley D. Morgan in
Chevy Chase, went to New York Thurs-
day. They will sail on the Olympic to-
morrow night for England.

Representative Edith Nourse Rogers
was the guest of honor when Col. and
Mrs. Thomas F. Dwyer entertained at
luncheon yesterday at their quarters
at Fort Adams, Newport. Mrs. Dwyer
also entertained at tea yesterday after-
noon in honor of Representative Rogers.

Representative Frank Reid, of Illi-
nois, has returned to his home at
Aurora after a short visit to the Wil-
lard Hotel.

Entertain at Club.

Mr. and Mrs. Joseph McReynolds en-
tertained at a small party last night
at the Gibson Island Club, Md.

Miss Norville Munford returned yes-
terday morning from Norfolk, where
she has been the guest of her brother-
in-law and sister, Commander and Mrs.
A. T. Beauregard. Miss Munford will
start for North Carolina on Wednes-
day.

Miss Alice Cutts, daughter of Col. and
Mrs. Richard M. Cutts, will go to North-
cast Harbor, Me., the first of the week.
Former Representative and Mrs. John
Philip Hill will start Tuesday on a
motor trip to Canada. They will not
return until September.

Capt. and Mrs. Wilbur R. Van Auken
will motor today to their summer home
in Herkimer County, N. Y., where they
will remain for the month of August.

Mrs. Charles D. Walcott and Mr.
Henry James Vaux, of Washington, and
Mr. and Mrs. George Vaux and Mr.
George Vaux, Jr., of Bryn Mawr, who
have returned from a cruise to Alaska
and the Yukon, are at the Empress
Hotel, Victoria, Vancouver Island. They
will follow a Southern route to the
East.

Mr. and Mrs. John Kennedy will pass
today at Gibson Island, Md.

Mrs. Henry Rea, of Pittsburgh, who
lived here during the war, has opened
her summer home at Southampton, L. I.
She has with her Mr. and Mrs. Henry
Oliver Rea and Miss Edith Anne Rea.
Mrs. Rea will sail soon for Europe.

Return From West.

Dr. and Mrs. W. Robert Perkins ac-
companied by their three children and
Mrs. Perkins' sister, Miss Mary V. Faw-
cett, have returned from a trip through
the West.

Dr. and Mrs. W. S. Hardesty are pass-
ing the remainder of the summer in
Maine. They will not return until
September 2.

Mrs. George Joerns has as her guests,
her mother, Mrs. R. E. Gattian, and her
niece, Miss Peggy Gattian, of Raleigh,
N. C.

Mrs. Dorsey Cullen and her son, Mr.
Dorsey Hurd Cullen, of Upperville, Va.,
have returned from an extended trip
in the West and are at the Willard.

Mrs. Percival Podgett, who has been
the guest of her sister-in-law, Mrs. R.
R. Podgett, at Everett, Wash., now is

BARLOW WILL DIRECT ALL-SOLOIST SYMPHONY

22-Piece Radio Orchestra Will
Play Over Columbia Net-
work September 4.

WRC PROGRAM TONIGHT

Howard Barlow, composer and former director of music for New York's Neighborhood Playhouse, will be in charge of a 22-piece, all-soloist radio symphony orchestra to play over the stations in the Columbia Broadcasting System's network, which starts on the air with programs Sunday, September 4. Mr. Barlow was born in Ohio and received his musical education in American institutions. Early in life he decided he would be a conductor and studied and worked directly to this end. He is said to have an unusual fluency in reading and interpreting new or difficult works. Among other "firsts," he conducted the premiere in Carnegie Hall of Charles Wakefield Cadman's opera, "The Garden of Mystery." The orchestra is being recruited from the ranks of the Philharmonic and other large symphony orchestras, and includes such soloists as Harry Glantz, trumpet; Ossip Gluck, cellist, and R. Meredith Wilson, flutist. The New York Philharmonic Orchestra will be heard through WRC in an hour's program tonight at 7:30 o'clock. The orchestra will play "Suite No. 3 for oboe, trumpet, trumpet and strings," by Bach and "Symphony No. 8, F Major," by Beethoven. Frederick Stock, who conducted the Chicago Symphony Orchestra until it was disbanded in a wage squabble, will lead the baton tonight. While there has been no announcement of the future plans of Mr. Stock, it has been rumored that he will be retained to promote music and musical affairs in Chicago. The Hofbrau Orchestra will be heard at 8 o'clock, followed by "Vacation Idylls," the weekly Bible talk under the auspices of the Organized Bible Class Association will be given by Dr. Charles B. Campbell of the Men's Bible Class of Calvary Methodist Church at 7:15 o'clock. "The Mediterranean" will be heard at 8:30 o'clock, followed by the Central and Palms d'Or Orchestra. Phil Hayden and "Les Colvin and a musical program by 'The Honoluluans' are on WMAL's schedule tonight. Paul E. Garber, in charge of aeronautics, Smithsonian Institution, will talk about "Model Airplanes" at 8:45 o'clock. Beginning at 9 o'clock there will be a program of dance music by "Tommy Tompkins' Trio." A program, made up entirely of works by Italian composers, will be featured by Edwin Franko Goldman, when his band is heard through the radio network of the National Broadcasting Co., tonight at 7:30 o'clock. WRC will not be in the chain. Rosini, Mascagni, Leoncavallo, Verdi, Donizetti and Puccini will be included. It was recently reported by a resident of the island of Maui in the Hawaiian group that KPO, San Francisco, is being heard there practically every night. "We enjoy your programs out here in the islands," the resident wrote. As the island of Maui is more than 2,000 miles in distance from San Francisco, this is declared by radio experts to be unusual transmission for the summer months, when conditions are usually at their worst.

**Thieves Dig Tunnel
To Safe of Poland**

Warsaw, Poland, July 29 (A.P.).—Six men, digging a 75-foot tunnel under the state printing shop and leading directly to a safe containing 1,000,000 zloty (about \$120,000) printed yesterday, were arrested today after a battle with police in which one of the robbers was mortally wounded. The men were using newest scientific devices, including a pneumatic drill, to dig the tunnel, and were virtually fishing it when the police surprised them. The tunnel, equipped with electric lights and ventilators, lacked only two yards of reaching the safe when the raid was made. "The king of Polish burglars," and supposed leader of the gang, was among those arrested. Nearly 100 policemen were engaged in rounding up the plotters, many of whom are said to be well to do.

**Revolt Rumor Blocks
Loan for Portugal**

Vigo, Spain (near the Portuguese frontier), July 29 (A.P.).—It is understood here that the Portuguese government has failed in negotiations with a group of English bankers for a loan. The explanation is that the "loan" failed because the government would not accept the condition that the first installment should not be paid until September.

Unofficially it is declared that this apparently unexpected condition by the bankers was based on statements made by political exiles who escaped after the Lisbon and Oporto revolutions of last February, who told the bankers that before next September the old party administration would be restored.

**Two More Arrests
In O'Higgins Murder**

London, July 29 (A.P.).—An exchange telegraph dispatch from Dublin says that it was learned today that two men were taken before the Dublin district court last night charged with the murder of Vice President Kevin O'Higgins on July 10. The dispatch says that the men who gave their names as Owen Donnelly, 25, and Thomas Merrigan, 38, were remanded in custody for one week.

Desirable rooms and pleasant places to board are listed every morning in Post Classified Ads.

INCREASE IN PROFITS

The results for the first half year have been in accordance with expectations. The revenue for 1926 is a decrease of only \$774,000, or 1.4 per cent, which is quite satisfactory in view of the general slackening of business throughout the Southeast as compared with the prosperous first half of 1925. The gross income was \$1,200,000, or 1.5 per cent less than the 1925 revenues, which showed a decline of \$1,789,000, or 11.5 per cent. The passenger business may be expected to be to the sharp let-down in Florida and the floods through the Mississippi Valley.

By F. W. PATTERSON.

Net income of Potomac Electric Power Co. for the year ending June 30, 1924, was \$94,544, an increase of \$32,599.21 over June a year ago, according to report of condition filed with the Public Utilities Commission.

Gross earnings from operations gained \$47,834.65 to \$693,370.72, while net earnings from operations amounted to \$349,595.32, an increase of \$47,834.65 over June, 1923.

Net income for the first six months of the year ending June 30, 1924, of \$163,218.98 over the first half-year period in 1923. Gross earnings reached \$349,595.32, an increase of \$47,834.65 over the same period.

Traction shares to 106, in a market that was less active than on Thursday, although the recent strength in price and volume was maintained. All shares traded in as well as in the bid quotations.

The traction shares opened unchanged at 105, and 100 shares changed hands in three lots at this level, with the bid price at 105 1/2. The 100 shares closed at 106. Closing bid was 105 1/2 with asked at 105 3/4. Potomac Electric Power 5 1/2% bonds were bid at 105 1/2, with asked close of 101 1/2, but other sales totaling 80 shares were recorded at 101 1/4, while the bid price for the same bonds was 108 1/2. Washington Gas Light sold in a small lot at 75 1/2 and Lanthan Monotype was unsold at 69.

Biggest national sale, gained 1 1/2

P. W. Chapman & Co., Inc., Graham Parsons & Co. and Cassett & Co. had purchased a large amount of new issue of \$2,500,000 first mortgage 5 per cent gold bonds, series A, of Williamsport, Pa., which the company is supplying water for domestic, municipal and industrial purposes to the city of Williamsport, Pa., for more than 20 years.

The issue of bonds will constitute the only mortgage indebtedness of the company, and will be secured by a mortgage on the entire property of the company. The company has been appraised as having a value of \$4,175,559 as June 30, 1927.

when compared with the corresponding six months a year ago, while operating expenses totaled \$1,842,830.42, or but \$52,928.69 more than for the first six months in 1924.

National Mortgage Plan Raises Interest.

Widespread local interest in the plan of the National Mortgage & Investment Corporation, which contemplates a fi-

points to 47 1/2% on a ten-share sale, while Merchants Bank & Trust Co. sold firm at 155.

Save for sales of Washington Gas Light Co., Series "B," at 104 1/2 and Barber & Ross, Inc. 6 1/2% at 96, the bond market was quiet.

District Bankers Meet.

The regular meeting of the council of the District Bankers Association

6 MILES, 864 HURT, IS RECKLESS DRIVING TOLL OF YEAR HERE

Traffic Bureau Stresses Menace of Speeding and Inattentive Autoists.

"ONE-ARMED" MOTORISTS ASSAILED BY OFFICIALS

Day-Dreamers Declared to Be Among the Worst of Traffic Menaces.

The reckless driver, the inattentive driver, and the speeder together killed six persons, and maimed and injured 864 others last year in the streets of Washington, according to information compiled by the Traffic Bureau.

These casualties were the ones attributable entirely to reckless and inattentive driving and speeding, and do not include those in which the pedestrian was partly at fault, or which might have been charged to some defect in the car, or to intoxication, or to some specific act on the part of the motorist.

However, the casualties specifically attributed to the three kinds of criminal driving classified as reckless, inattentive, and faster than the limit set by law do not begin to comprehend the constant danger of such driving in the streets, or the toll of lives and limbs which they take. In fact, the majority of traffic accidents may be in a degree attributable to some form of one of these three kinds of driving.

Charge to Motorists.

The fault may have been the pedestrian's, according to evidence, or it may be attributed to some particular cause, but, nevertheless, the fact stands that if these three kinds of driving were outlawed from the streets, the fighting in the common campaign to reduce traffic casualties and bring driving down to the level of sanity could hang up their gloves and call the fight won. If motorists will drive properly, as a usual rule they will not kill people.

Traffic experts are beginning more and more to charge to motorists the responsibility for killings and injuries. And motorists, it is indicated, will be expected more and more to shoulder the responsibility. They constitute the danger. Pedestrians are not dangerous to motorists. And despite the fact that pedestrians must be attentive and careful, and avoid risks, the settling motion of natural justice is coming more and more to charge the motorist with his keeping.

It might be regarded as a law of justice that a person, becoming a potential danger, is responsible to others in the degree that he is dangerous. There is no half-and-half rule of responsibility between a man in a machine who is dangerous and a man in the street who is endangered. It is not right, and will not be considered so very long, that the motorist must shoulder his part of the responsibility by driving with care, by being all attention while driving, and by keeping within such a speed limit as conditions demand.

Reckless Driving Worst.

These are the opposites of the kinds of driving which are the subject of this article, and if all motorists will obey them, traffic accidents will become a rarity rather than an everyday occurrence.

The worst offense of the streets, because of its toll of deaths and injuries, is reckless driving. The records of the Traffic Bureau attribute to reckless driving 400 deaths and 490 injuries occurring last year. Reckless driving indicates willfulness, as a rule. To inattentive driving, the second worst offense, one death and 361 injuries were attributed last year. Another point to be stressed is that speeding last year killed one person and injured 13 others. And the reason this should be stressed is that these cases of speeding seldom exceeded 30 miles an hour, for speeding in excess of that rate is usually classed as reckless driving.

Takes Many Forms.

Reckless driving, of course, has many forms, the majority of which, however, are classed as criminal practices. The following practices, although often classed under other heads, when committed recklessly, always become reckless driving:

Driving on the wrong side of the street, driving in a zigzag fashion, and driving at a reckless speed, the worst forms, cutting corners, driving too fast into a street intersection, driving too fast for conditions on a wet street, passing a street car when loading or unloading passengers, turning around in the street without giving the proper signal.

Pulling out from the curb without giving the proper signal and at too fast a speed, making a left or right hand turn in front of a through vehicle which, in such cases, has the right of way, speeding to an intersection in order to take the right of way, driving through safety zones, failing to stop at proper traffic light signals, cutting in and out of traffic, and especially these four criminal offenses on the country highway:

Passing on Narrow-Road.

Passing another vehicle where the road is narrow, passing another vehicle on a curve when it is impossible for the driver to see whether another machine is approaching, passing another vehicle on the brow of a hill, and passing another vehicle when a vehicle coming from the opposite direction is less than 200 yards distant. Of course, anything reckless in the handling of an automobile wheel or steering, or anything reckless in reckless driving, but these are common forms and have been listed in the hope that they may give motorists a better idea of what to avoid.

Inattentive driving, or careless driving, as it is sometimes called, is well illustrated by occurrences charged to last year's casualties by the Traffic Bureau.

A man was driving down the street with his father-in-law in the rear of the car, and evidence indicated that he was busily engaged in conversation with his father-in-law. He was traveling on a boulevard highway and was about 75 feet from the street intersection when a truck, traveling on the cross street, reached the intersection, stopped, as required by law, and started across. The man was so engrossed by the conversation, however, that he did not see the truck, and crashed into the rear of the truck, with the result that his father-in-law was thrown out of the car and killed.

Attention Is Stressed.

This occurrence should argue to drivers the necessity of being all attention while driving and of keeping not only their eyes but their consciousness, their thoughts, on the road and on traffic.

The day dreamer, the wool-gathering driver, the man who drives home in the evening thinking of his business rather than of the traffic, the driver worrying over family or other troubles, the one-arm driver who has the other arm around a young woman beside him, generally, all drivers who have their attention on something else and do not have their attention on their driving, come under the general classification of the inattentive driver. They are among the worst menaces of the streets.

Safety Hint

Motorists would do well to determine a dead-line distance for vehicles coming from the opposite direction when they attempt to pass a vehicle on a comparatively narrow street or highway. They should not guess, but do a little beforehand calculating.

For instance, at average speed on a highway vehicles are coming toward each other at the rate of 75 or 80 feet a second. A motorist should give himself five seconds in which to pass another vehicle. Something might happen. That means that the vehicle coming from the opposite direction should be at least 400 feet away when he attempts to pass. Let that be the dead-line distance for average speed. And if the vehicle coming from the opposite direction is obviously traveling fast, it would be better to let it pass first.

him, generally, all drivers who have their attention on something else and do not have their attention on their driving, come under the general classification of the inattentive driver. They are among the worst menaces of the streets.

There is one thing that all motorists should learn, and that is that modern cars do not break themselves of a habit of wool-gathering or day-dreaming that he can not break himself of, he should sell his automobile and ride street cars. It would be safer for himself and others. Looking at the scenery, turning one's head to speak to a person on the sidewalk and driving while nonchalantly lighting a pipe, cigar or cigarette and other forms of inattentive driving which Traffic Bureau officials would consider a noteworthy victory to be able to curb.

Identified by Horn.

Officials of the Traffic Bureau say that you can tell a reckless driver by the extent to which he sounds his horn, and by the condition of his car. Sounding an automobile horn excessively requires a high degree of selfishness and ego, and no degree of thought. An unkempt, banked-up car with crumpled fenders usually indicates the reckless driver and chronic horn-blower, and reflects, as in a mirror, it is said, the condition of the driver's brain.

As a class, the drivers of small delivery trucks are the worst offenders at reckless driving, Traffic Bureau officials say. These drivers are usually irresponsible youths who work for small establishments, such as groceries and other small shops. There is little supervision over them, and they go their way, pell-mell, recklessly, thoughtlessly. Owners of large fleets of vehicles usually demand caution on the part of the drivers. This apparently does not occur to the small shop owner.

The second worst offenders at reckless driving are the "sheiks" and students who race the streets with second-hand, cheap cars, usually painted with devices and dare-devil signs.

Called "Flying Fools."

These "flying fools," as Traffic Bureau officials call them, will cut corners, swerve their cars around in the middle of the street without giving a warning, and generally ignore all rules of safety and sanity.

A third offender is the rum-runner, who usually is a reckless driver. The worst cases of traffic law violation have involved the rum-runner. This latter violator, however, although the worst, is in the minority as a class.

\$750,000 IS ESTATE LEFT BY HENRY WHITE

Property in Capital and Baltimore Included in Will of Former Envoy.

Henry White, former American Ambassador to France and member of the American peace commission which accompanied President Wilson to France for the sessions at Versailles, who died July 16 at Lenox, Mass., left an estate valued at more than \$750,000, according to the petition for letters testamentary filed yesterday in the probate division of the District of Columbia Supreme Court by his son, John C. White, and Lewis S. Morris, who are named executors under the will. The estate includes the home here at 1624 Crescent place northwest and property in Baltimore. The debts amount to \$5,000, according to the petition.

Mary C. Knowlton, who died July 24, left an estate valued at \$100,000, according to the petition for letters of administration filed by her daughter, Maude R. Staples. The estate includes premises 1614 Upshur street northwest. Mrs. Mary J. Pogue, who died June 29, left an estate valued at about \$25,000, according to the petition for letters of administration filed by her daughter, Anna M. Patterson. The deceased also is survived by a son, Peter C. Pogue, and a daughter, Jane Dalley, who died July 18, left an estate valued at about \$15,000, according to the petition for letters testamentary filed by her daughter, Anna E. Graham.

The Wardman Park Hotel, Inc., was sued yesterday in Circuit Court for \$5,000 damages for alleged personal injuries by Harry Randall, 1436 Wisconsin avenue northwest. Through Attorney Edwin M. Martin the plaintiff says that he visited the Wardman Park Garage, twenty-seventh and G streets, to have his car repaired and drove into an unguarded elevator shaft.

Policeman Sued for Limited Divorce.

Mrs. Ada V. Fling, a telephone operator, filed suit yesterday in Equity Court against Motorcyclist Policeman James H. Fling, of the Fourth Precinct, for a limited divorce. The parties were married August 8, 1922. Through Attorney M. J. Lane the plaintiff charges cruelty and says that her husband locked her out of their home last April.

OVER HERE—OVER THERE—

When the American soldiers were first led into the trenches they went at night, in single file, along roads protected by anti-aircraft units searchlights and guns. Not a cigarette could be lighted, not a fire built. Hour after hour the men plodded through the mud.

As the men approached the front, warnings went down the line that there was to be no talking. The enemy's night patrols sometimes crept behind the lines and noted troop movements, and all equipment was blacked so there could be no betraying gleams of metals.

CAMERA RECORDS NEWS EVENTS

MAPPING. Field artillerymen must know maps. The best way to learn is to make them. Washington members of the artillery training camp of the C. M. T. C. at Fort Myer, Md., being instructed by a student captain. Left to right—Capt. Paul L. Edwards, 1216 C street northwest; Sergt. William P. Kilgore, Clarendon, Va.; Sergt. Peter W. Hazes, 3019 Twenty-sixth street northeast, and Sergt. John W. Brightenburgh, 411 M street northwest.

BUDDIES. Jojo, the chimpanzee, and Little Reading Elk, the son of a Sioux chief, who are good buddies. They are with the 101 Ranch Wild West show which opens at Camp Meigs Monday. Jojo isn't really ferocious, he just looks that way.

BATHERS. The heat was forgotten yesterday by the crowd of The Washington Post carriers and newsboys who attended The Post's swimming party at Scape Flow swimming pool. Gleeful shouts followed the first plunge into the cooling waters.

Nicaraguan Arrested On Charge of Girls

Charges of assault upon two young girls were placed against Miguel Sequera, 39 years old, of 2013 Kalorama road northwest, yesterday by Detectives Thomas Nally and E. E. Thompson, of the central office. He is alleged to have molested the girls who were picking on the Temple Heights grounds.

Garnet High School Plans Are Adopted

Plans for the new Garnet Junior High School, to be erected on the site of the Garnet-Patterson School at Tenth and U street northwest, were formally adopted yesterday at a meeting of the Board of Education committee on buildings and grounds with Acting Superintendent of Schools Raymond O. Wilmarth, in his offices at the Franklin Administration Building.

Precautions Near the Front

Officers wore no insignia of rank. Their own men knew them, and a Sam Browne belt or a shoulder bar might have told an observant sniper of the presence of an unusually desirable target. Tailored uniforms were often replaced with the issue garments worn by enlisted men.

Groups were first placed in the second or third line of trenches, often a mile or more back of the first line. Here they were subjected to the shell fire which initiated them in the business of war. At the warning of danger of shells, the men learned to dive for cover.

TRANSFERRED. Policeman R. V. Sinclair, terror of the overtime parkers, is to be transferred from the First Precinct parking squad to bicycle duty in an outlying precinct.

HISTORIC. Acting Postmaster General W. Irving Glover examining the mail sack which was carried in his transatlantic flight by Commander Richard E. Byrd, U. S. N. The sack contained 293 letters, weighing 4 pounds 13 ounces and was addressed to Paris, France, via airplane America.

DEFENDER. Policeman Horace W. Lineberg, of the Thirtieth Precinct, president of the Policemen's Association, stepped from his platform Thursday night to offer a resolution condemning Senator Edwards' attack on the Metropolitan Police force.

Capt. Daley Honored By Sons of Jonadab

Memorial services for Capt. John C. Daley were held last night by the Independent Order Sons of Jonadab at Jonadab Hall, 623 Louisiana avenue northwest.

Absolute Divorce Sought by Wife

Mrs. Mary M. Bernhardt filed suit yesterday in Equity Court against Archaus B. Bernhardt for an absolute divorce. The parties were married July 3, 1916, and have two children. Attorney Lambert, Yeatman & Canfield appeared for Mrs. Bernhardt.

Levine to Teach Law

Victor Levine, special assistant to the Attorney General, in charge of the litigation arising out of the sale of the surplus war supplies, last night announced he has accepted an appointment as professor of law at Syracuse University.

Man Released on Bond for Hearing.

John W. Degees, who was arrested by the police of the Third Precinct on July 26 for the authorities of Prince Georges County, Md., was ordered released under \$1,500 bond yesterday by Judge Bailey in the District Supreme Court for a hearing August 3 on a writ of habeas corpus. Through Attorney J. Robert Peier, Degees stated that he knew of no charges against him in Maryland.

Bridge Permit Approved

Application made by the Southern Railway Co. of this city for approval of plans of a bridge to be built over the Pamunkey River at White House, Va., was approved yesterday by Acting Secretary of War Davison.

What's Your Rating? Here Are the Answers.

1. Charles Dickens (Bleak House).
2. Horse racing.
3. A complicated system for the spiriting of negro slaves from the South to the Northern States and Canada.
4. Montreal (est. 618,000 in 1926).
5. Jonathan Swift (in his "Gulliver's Travels"). They are a race of beastly creatures bearing a semblance of men.
6. Independent Democratic sympathies.
7. By their antennae, which they continually rub together.
8. The Ford and the Lincoln cars.
9. F. Dostoevsky.
10. F. Trubee Davison, of New York.

Filipino Club to Give Inauguration Dance

Newly elected officers of the Filipino Club will be honored by that organization at an inaugural dance to be held tonight at L'Aiglon, Eighteenth street and Columbia road northwest. The new officers are Juan R. Quijano, president; Juan M. Silva, vice president; Felix P. Pineda, recording secretary; Miss Pacita Thomas, corresponding secretary; Roque M. Silva, treasurer; Luis C. Fernandez, house manager; Melicio Acosta, sergeant at arms, and Alfredo Samson, critic.

Mellon Right Upheld In Disbarment Case

The power of the Secretary of the Treasury, through his agents or representatives, to disbar from practice before the department any person adjudged unfit to practice, was upheld yesterday by Justice Jennings Bailey in the equity division of the District of Columbia Supreme Court.

Location of Proposed Greek Pillar Sought

Having been informed of the proposed gift of the Greek nation to this city of a pillar of the Temple of Jupiter at Athens, local officials with the Office of Public Buildings and Public Parks regarding location of the pillar, and with the Commission of Fine Arts as to a pedestal for the column.

Johnson Is Elected Roads President

Dr. S. M. Johnson, honorary president of the Lee Highway Association, was notified yesterday of his election as head of the national good road board of the National Motorists Association.

Real Estate Man Held as Fugitive

An accusation of being a fugitive from Philadelphia justice was placed against Silas Morris Smith, 49 years old, who described himself as a real estate man of Clarksburg, W. Va., last night by Detectives Bernard W. Thompson and Ira E. Keck. He will be surrendered to Pennsylvania authorities today.

Capt. Daley Honored By Sons of Jonadab

Memorial services for Capt. John C. Daley were held last night by the Independent Order Sons of Jonadab at Jonadab Hall, 623 Louisiana avenue northwest.

Absolute Divorce Sought by Wife

Mrs. Mary M. Bernhardt filed suit yesterday in Equity Court against Archaus B. Bernhardt for an absolute divorce. The parties were married July 3, 1916, and have two children. Attorney Lambert, Yeatman & Canfield appeared for Mrs. Bernhardt.

Levine to Teach Law

Victor Levine, special assistant to the Attorney General, in charge of the litigation arising out of the sale of the surplus war supplies, last night announced he has accepted an appointment as professor of law at Syracuse University.

Man Released on Bond for Hearing

John W. Degees, who was arrested by the police of the Third Precinct on July 26 for the authorities of Prince Georges County, Md., was ordered released under \$1,500 bond yesterday by Judge Bailey in the District Supreme Court for a hearing August 3 on a writ of habeas corpus. Through Attorney J. Robert Peier, Degees stated that he knew of no charges against him in Maryland.

Bridge Permit Approved.

Application made by the Southern Railway Co. of this city for approval of plans of a bridge to be built over the Pamunkey River at White House, Va., was approved yesterday by Acting Secretary of War Davison.

BAILEY REQUESTED TO RESCIND ACTION AGAINST ROAD MAPS

Defects Caused Judge to Dismiss Case of Land Condemnation.

TAYLOR STREET NOTES INCLUDED IN DRAWING

District Officials Perturbed Because Delay Threatens Highway Plans.

Steps were taken yesterday to induce Justice Jennings Bailey of the District Supreme Court to take a different view of the shortcomings of the old maps of the highway plan, prepared in 1908, because of which he last week dismissed a case for the condemnation of land to open Taylor street northwest in the vicinity of Soldiers Home.

Justice Bailey sustained a technical point raised by an attorney for an interested property owner, that the maps of the highway plan did not contain notations, as required specifically by law, of the boundaries, dimensions and areas of all streets proposed to be opened, including Taylor street.

When the point was raised Assistant Corporation Counsel H. H. Hazen, who was trying the case for the District, asked District Surveyor Melvin C. Hazen for the maps, and, sure enough, the part of Taylor street proposed to be opened appeared thereon without the notations referred to. Bell therefore admitted the truth of the allegation.

Threatened by Delay.

District officials have been perturbed about the matter ever since, because much work in developing the highway plan threatened to be delayed. Col. William B. Ladue, engineer commissioner, visited Hazen's office and went over the plat books with him. While in many cases the dimensions and boundaries of streets are not recorded until the maps being mere contour sketches of the projected roadways, a table containing the square foot and acre areas of each street was found in the front of each plat book. It was decided to lay before the court the fact that the areas are there and that the dimensions and boundaries could easily be figured in each case by use of the scale of the map, assuming the drawings had been correctly done. This work, done as a matter of fact, as to each street before condemnation proceedings are started. The effort will be to convince Justice Bailey that the terms of the law are thus virtually complied with.

First Assistant Corporation Counsel Ringgold Hart yesterday filed a motion to set aside the judgment of the court in the Taylor street case, supporting the motion with an affidavit stating that Bell had not been supplied with all the information in the hands of Hazen, and therefore erred in admitting the truth of the technicality pleaded by the defense.

Johnson Is Elected Roads President

Dr. S. M. Johnson, honorary president of the Lee Highway Association, was notified yesterday of his election as head of the national good road board of the National Motorists Association.

Upon receipt of the telegram announcing his selection for the post, Dr. Johnson made public a comprehensive outline of his plans for an educational campaign, including the holding of a national census of leading citizens of all cities will be made, from which persons will be selected and invited to membership of the national good road board. The next step will be the presentation and consideration of an ambitious road building program already in sketchy form, and headquarters of the board will be located here.

Divorce Is Refused; Must Live Together

Dismissing a divorce suit brought by Mrs. Mabel W. Meyers, of the lower section of Montgomery County, and a cross bill filed by her husband, Charles F. Meyers, Judge Robert B. Peter, in the Circuit Court at Rockville, yesterday refused to grant the divorce, and the couple resume domestic relations.

Judge Peter declared that the one who prevents the resumption of conjugal relations within a reasonable time will be found guilty of desertion. Both divorce bills had given desertion as the grounds upon which the parties wanted their divorces.

The Meyers were married in 1918, and lived together for ten years. They have three children.

Body of Male Child Found in Rock Creek

The body of a male infant was found in the waters of Rock Creek near the Brookville Road Bridge yesterday afternoon by Mr. and Mrs. L. L. Gourley, of 208 Taylor street northwest.

Father of Ten Fired At Son, Wife Charges

Said to have shot at his 16-year-old son Wesley Degees yesterday morning, William Gill, of 1311 C street southwest, sheet metal worker and father of 10 children, was taken to the Hospital for mental observation by Judge Robert E. Mattingly in Police Court. He was charged with making threats.

Mrs. Eva Gill, his wife, told the court he became intoxicated, threatened her and their children. Yesterday she said Wesley came to her defense and his father drew a revolver and fired several shots at the boy, who fled through an alley in the rear of their home. The boy was unhurt.

Man Released on Bond for Hearing.

John W. Degees, who was arrested by the police of the Third Precinct on July 26 for the authorities of Prince Georges County, Md., was ordered released under \$1,500 bond yesterday by Judge Bailey in the District Supreme Court for a hearing August 3 on a writ of habeas corpus. Through Attorney J. Robert Peier, Degees stated that he knew of no charges against him in Maryland.

Bridge Permit Approved

Application made by the Southern Railway Co. of this city for approval of plans of a bridge to be built over the Pamunkey River at White House, Va., was approved yesterday by Acting Secretary of War Davison.
